T J Bratty - Director

**NOTES TO THE ABBREVIATED ACCOUNTS
for the Year Ended 31 January 2016**

1. ACCOUNTING POLICIES

Going concern

These financial statements have been prepared on the basis that the company will continue to be a going concern. If this assumption is not considered to be valid, then adjustments would need to be made to reduce the value of assets to their recoverable amount, to provide for any further liabilities that may arise and to reclassify fixed assets and long-term liabilities as current assets and current liabilities.

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

Turnover

Turnover represents the sales of tickets and merchandise and invoiced sales of services all net of vat.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant and machinery	- 25% on reducing balance
Computer equipment	- 25% on reducing balance

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Deferred tax

The charge for deferred tax takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. Deferred tax assets are recognised only to the extent that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred taxation is measured on a non-discounted basis at the tax rates that would apply when the timing differences reverse based on tax rates and laws that have been enacted, or substantively enacted, by the balance sheet date.
