All the members have consented to the preparation of an abridged Statement of Financial Position for the year ended 31 January 2017 in accordance with Section 444(2A) of the Companies Act 2006.

In accordance with Section 444 of the Companies Act 2006, the Income Statement has not been delivered.

The financial statements were approved by the director on 19 September 2017 and were signed by:

J F Haworth - Director

Bison Products Limited is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

Basis of preparing the financial statements

These financial statements have been prepared in accordance with the provisions of Section 1A "Small Entities" of Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

These financial statements have been prepared on the basis that the company continues to be a going concern.

The company recorded a profit of £40,934 (2016: loss of £9,161) during the year, has net liabilities of £193,147 (2016: £234,081), and is dependent upon the continued support of its director and shareholders. However, taking into account recent management accounts and projections, the director is confident that the business will maintain its return to profitability in 2017/18. On this basis the accounts have been produced on a going concern basis.

Turnover

Turnover is measured at the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes.

Intangible assets

Intangible assets are initially measured at cost. After initial recognition, intangible assets are measured at cost less any accumulated amortisation and any accumulated impairment losses.

Development costs are being amortised evenly over their estimated useful life of five years.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off the cost less estimated residual value of each asset over its estimated useful life.

Plant and machinery etc - 33% on cost and 25% on cost

Tangible fixed assets are stated at cost less depreciation and impairment.

Impairment of assets

At each reporting date assets are reviewed to determine whether there is any indication that those assets have suffered an impairment loss. If there is an indication of possible impairment, the recoverable amount of any affected asset is estimated and compared with its carrying amount. If the estimated recoverable amount is lower, the carrying amount is reduced to its estimated recoverable amount, and an impairment loss is recognised immediately in the profit and loss.

Where an impairment loss subsequently reverses, the carrying amount of each asset is increased to the revised estimate of its recoverable amount, to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined (net of depreciation) had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised as income immediately.

Stocks

Stocks are valued at the lower of cost and estimated selling price less costs to complete and sell.

**NOTES TO THE FINANCIAL STATEMENTS - continued
for the Year Ended 31 January 2017**

2. ACCOUNTING POLICIES - continued

Financial instruments

Trade and other debtors are initially recognised at the transaction price and thereafter stated at amortised cost using effective interest method, less impairment losses for bad and doubtful debts except where the effect of discounting would be immaterial. In such cases, the receivables are stated at cost less impairment losses for bad and doubtful debts.

Short term trade creditors are measured at transaction price. Financial liabilities that have no stated interest rate and are payable within one year shall be measured at the undiscounted amount due.

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the statement of financial position date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the statement of financial position date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

6. RELATED PARTY DISCLOSURES

Included in Other Creditors are amounts due to related undertakings of £209,079, (2016 - £229,363), although this is repayable on demand, the undertakings have confirmed their willingness to wait for repayment.

7. FIRST YEAR ADOPTION

This is the first year in which the financial statements have been prepared under FRS Section 1A, as such the Directors have concluded that amounts previously disclosed as after one year have no fixed repayment terms and are repayable on demand, accordingly the balances have been restated.

The transition has not resulted in any changes in accounting policies to those previously used.
