Notes to the Abbreviated Accounts for the period ended 31 March 2015**1 Accounting Policies****Basis of measurement and preparation of accounts**

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities effective April 2008.

Turnover policy

Turnover represents amounts chargeable, net of value added tax, in respect of the sale of good and services to customers.

Tangible assets depreciation policy

Depreciation is provided on tangible fixed assets so as to write off the cost of valuation, less any estimated residual value, over their expected useful economic life as follows:

Asset Class Depreciation Method & Rate

Plant and machinery 25% Reducing balance

Intangible assets amortisation policy

Amortisation is provided on intangible fixed assets so as to write off the cost, less any estimated residual value, over their expected useful economic life as follows:

Asset Class Amortisation method and rate

Goodwill 10% straight line

Other accounting policies**Goodwill**

Positive goodwill is capitalised, classified as an asset on the balance sheet and amortised on a straight line basis over its useful economic life. It is reviewed for impairment at the end of the first full financial year following the acquisition and in other periods if events or changes in circumstances indicate that the carrying value may not be recoverable.

Stock

Stock is valued at the lower of cost and net realisable value, after due regard for obsolete and slow moving stocks. Net realisable value is based on selling prices less anticipated costs to completion and selling costs.

outstanding.

Financial Instruments

Financial instruments are classified and accounted for, according to the substance of the contractual agreement, as financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities. Where shares are issued, any component that creates a financial liability of the company is presented as a liability in the balance sheet. The corresponding dividends relating to the liability component are charged as interest expense in the profit and loss account.
