NOTES TO THE ABBREVIATED ACCOUNTS FOR THE PERIOD ENDED 30 JUNE 2012

1. Accounting Policies

1.1 Basis of preparation of financial statements

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

The company made a loss after taxation for the period ended 30 June 2012 of £73,535 resulting in a balance sheet deficit of £73,435 at the period end. However, of that deficit £182,824 represents liabilities payable to the holding company which has confirmed that it does not intend to seek repayment until the company has surplus and sufficient funds.

In addition, this is the company's first period of trade and one-off development costs have been incurred which are expected to result in sales and the company being profitable for the year ended 30 June 2013. The company's parent company will continue its financial support for the foreseeable future such that the company is able to meet its ongoing liabilities as and when they fall due.

In the light of this and after taking into account all information that could reasonably be expected to be available, the directors are satisfied that the company will continue in operational existence for the foreseeable future, and that the going concern basis is appropriate for the preparation of the company's financial statements.

1.2 Turnover

Turnover represents net invoiced sales of goods, excluding value added tax.

Sales are recognised on the date of dispatch from the supplier if delivered direct to the customer, or on the date of dispatch from the company's warehouse if supplied from company stock.

1.3 Research and development

Development costs are capitalised within intangible assets where they can be identified with a specific product or project anticipated to produce future benefits, and are amortised on the straight line basis over the anticipated life of the benefits arising from the completed product or project.

Deferred research and development costs are reviewed annually, and where future benefits are deemed to have ceased or to be in doubt, the balance of any related research and development is written off to the profit and loss account.

1.4 Stocks

Stocks are valued at the lower of cost and net realisable value after making due allowance for obsolete and slow-moving items.

1.5 Foreign currencies

Monetary assets and liabilities denominated in foreign currencies are translated into sterling at rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate ruling on the date of the transaction. Exchange gains and losses are recognised in the profit and loss account.
