Notes to the financial statements	9-15

Smith & Williamson I M Limited

Directors' report

The directors present their report on the affairs of the company, together with the audited financial statements for the year ended 30 April 2018.

Principal activities and business review

The company is an intermediate holding company and a corporate member of Smith & Williamson Investment Management LLP, from which it receives a profit share.

Profit before tax for the year was £97,000 (2017: £6,003,000). Operating cash inflow before movements in operating assets and liabilities was £97,000 (2017: £6,003,000).

The profit before tax and operating cash inflow reflects the profit share received from Smith & Williamson Investment Management LLP.

The company has elected not to present a strategic report in accordance with section 414B of the Companies Act 2006 exemption relating to small companies.

Taxation

Tax charge for the year was £1,469,000 (2017: £2,263,000). A full reconciliation is set out in note 5.

Directors

The directors of the company are listed below. All of these directors served throughout the year under review, and up to the point of signing the financial statements, except where noted.

G T Hotson

D M Cobb

N Medici (alternate to D M Cobb) (resigned 5 July 2018)

K P Stopps

Dividends

No dividend was paid during the year (2017: £4,467,000). The directors do not recommend the payment of a final dividend (2017: £nil).

Going concern

The directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. For this reason they continue to adopt the going concern basis of accounting in preparing the annual financial statements.

The company is reliant upon the support from its ultimate parent undertaking Smith & Williamson Holdings Limited and its subsidiary undertakings ('the group') as it meets its day-to-day working capital requirements through the continuation of loans provided to it by group members who have confirmed that they will not demand repayment of the loans and inter-company balances to enable the company to meet its liabilities as they fall due. The group's forecasts and projections, taking account of reasonably possible changes in trading performance, show that the group is in a position to provide this support for a period of at least 12 months from the date of signing of these financial statements.

Principal risks and uncertainties

There has been a continued focus on developing Smith & Williamson Holdings Limited group's risk appetite statements and relevant management information to ensure that appetites set flow down the organisation and that risks are managed accordingly.

From the perspective of the company, the principal risks and uncertainties are integrated with the principal risks of Smith & Williamson Holdings Limited group. Accordingly, the principal risks and uncertainties of the group, which include those of the company, are discussed in the Smith & Williamson Holdings Limited group's annual report and accounts which does not form part of this report. Details of the company's financial risks are included in note 17.

Future outlook

The directors remain cautious about the short-term outlook for the UK economy due to political and economic uncertainty, both in the UK and elsewhere. They will continue to invest in business development, sales and marketing activities to ensure that they are able to take full advantage of the future improvements in overall economic conditions.

In addition, the directors remain committed to progressing with planned investments to enhance and modernise IT infrastructure and systems.

Smith & Williamson I M Limited

Directors' report (continued)

Events after the balance sheet date

There have been no material post balance sheet events.

Indemnity

The directors have been covered by third party liability insurance throughout the year and the policy of insurance remains in force.

Statement of directors' responsibilities

The directors are responsible for preparing the strategic report and the directors' report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs and profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- state whether applicable IFRSs have been followed, subject to any material departures disclosed and explained in the financial statements;
- make judgements and accounting estimates that are reasonable and prudent;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In accordance with Section 418, directors' reports shall include a statement, in the case of each director in office at the date the directors' report is approved, that:

- so far as each director is aware, there is no relevant audit information of which the company's auditors are unaware; and
- the directors have taken all the steps that they ought to have taken as directors in order to make themselves aware of any relevant audit information and to establish that the auditors are aware of that information.

30 July 2018

Independent auditors' report to the members of Smith & Williamson I M Limited

Report on the audit of the financial statements

Opinion

In our opinion, Smith & Williamson I M Limited's financial statements:

- give a true and fair view of the state of the company's affairs as at 30 April 2018 and of its loss and cash flows for the year then ended;
- have been properly prepared in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Report and Financial Statements (the "Annual Report"), which comprise: the balance sheet as at 30 April 2018; the statement of comprehensive income, cash flow statement, the statement of changes in equity for the year then ended; and the notes to the financial statements, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which ISAs (UK) require us to report to you when:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the company's ability to continue as a going concern.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Directors' Report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (UK) require us also to report certain opinions and matters as described below.

Directors' Report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Directors' Report for the year ended 30 April 2018 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we did not identify any material misstatements in the Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of directors' responsibilities set out on page 2, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not received all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us; or
- certain disclosures of directors' remuneration specified by law are not made; or
- the financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

Entitlement to exemptions

Under the Companies Act 2006 we are required to report to you if, in our opinion, the directors were not entitled to take advantage of the small companies exemption from preparing a strategic report. We have no exceptions to report arising from this responsibility.

Smith & Williamson I M Limited

Notes to the financial statements

for the year ended 30 April 2018

1. Principal accounting policies

Smith & Williamson I M Limited is a company incorporated and domiciled in England and Wales.

The financial statements have been prepared in accordance with IFRSs as adopted by the EU and interpretations issued by the IFRS Interpretations Committee (IFRS IC). The financial statements are also prepared in accordance with those parts of the Companies Act 2006 that remain applicable to companies reporting under IFRSs as adopted by the EU. The financial statements have been prepared under the historical cost basis. The accounting policies have been applied consistently.

The company has elected not to present a Strategic report in accordance with section 414B of the Companies Act 2006 exemption relating to small companies.

New standards and interpretations not yet adopted

Certain new accounting standards and interpretations, which have not been applied in these financial statements, were in issue but not yet mandatorily effective for the company. The company's assessment of the impact of these new standards and interpretations is set out below.

IFRS 9 Financial instruments

IFRS 9 is effective for financial years commencing on or after 1 January 2018. The first report and financial statements published in accordance with IFRS 9 will be the 30 April 2019 report. The company plans to adopt a retrospective approach from 1 May 2018, with the practical expedients permitted under the standard. Comparatives for 2018 will not be restated.

The new classification and measurement rules for financial assets under IFRS 9 have a limited impact on the company as the measurement basis is unchanged from that under IFRS 39. Cash and cash equivalents and other receivables will be measured at amortised cost.

The classification and measurement of financial liabilities in accordance with IFRS 9 remains largely unchanged from IAS 39 and are classified as financial liabilities at amortised cost.

The new impairment model requires the recognition of impairment provisions based on expected credit losses rather than only incurred credit losses as is the case under IAS 39. Expected credit losses are to be recognised on all financial instruments within scope from when they are originated or purchased. Full lifetime expected credit losses are recognised when a financial instrument deteriorates significantly in credit quality. Due to the short duration and high credit quality of the company's financial assets and the high level of collateralisation, expected credit losses are expected to be immaterial (impact is less than 0.01% of total equity).

The new standard also introduces expanded disclosure requirements and changes in presentation. These are expected to change the nature and extent of the company's disclosures about its financial instruments.

IFRS 15 Revenue from contracts with customers

IFRS 15 is effective for financial years commencing on or after 1 January 2018. The first Report and Financial Statements published in accordance with IFRS 15 will be the 30 April 2019 report. The company plans to adopt a modified retrospective approach from 1 May 2018. Comparatives for 2018 will not be restated.

The core principle of IFRS 15 is for entities to recognise revenue to depict the transfer of goods and services to customers in amounts that reflect the consideration (that is, payment) to which the entity expects to be entitled in exchange for those goods or services. A five-step model is applied to determine when to recognise revenue, and at what amount.

Management has reviewed the terms and conditions of contracts in order to determine, using the five-step model, the company's performance obligation and the associated timing of each performance obligation. This review concluded that, while the basis of assessing revenue recognition is different to that used under IAS 18, the recognition point and measurement will be consistent.

Based on management's assessment, the implementation of this standard is not expected to have an impact on the company's reported financial position or performance or require any operational changes to the way that revenue is captured in source systems.

Smith & Williamson I M Limited

Notes to the financial statements (continued)

for the year ended 30 April 2018

Going concern

Reference to the company's ability to continue as a going concern is included under the directors' report.

Basis of consolidation

The company has elected not to prepare consolidated financial statements in accordance with the IAS 27 'Consolidated and Separate Financial Statements' exemption. The financial statements are separate financial statements for Smith & Williamson I M Limited. Smith & Williamson Holdings Limited incorporated in the UK is the ultimate parent entity of the company and has prepared publicly available financial statements which comply with IFRSs. A copy can be obtained from the Company Secretary at 25 Moorgate, London EC2R 6AY. Details of subsidiaries are included in note 6.

Foreign currencies

Functional and presentation currency

The financial statements are presented in pounds sterling, which is the company's functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the income statement. Non-monetary items are translated at rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Income recognition

Income is recognised at the fair value of the consideration received or receivable. The point at which revenue is recognised is described below.

Net interest income

Interest income or expense from interest-bearing financial instruments, except those classified as held for trading, is calculated using the effective interest method and recognised within net interest income.

The effective interest method is the method of calculating the amortised cost of a financial asset or liability (or group of assets and liabilities) and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts the expected future cash payments or receipts through the expected life of the financial instrument, or when appropriate, a shorter period, to the net carrying amount of the instrument. The application of the method has the effect of recognising income receivable (or expense payable) on the instrument evenly in proportion to the amount outstanding over the period to maturity or repayment. In calculating effective interest, the company estimates cash flows considering all contractual terms of the financial instrument but excluding future credit losses.

Investment income

Income arising from the investment in Smith & Williamson Investment Management LLP is recognised when profits are allocated.

Taxation

The tax expense represents the sum of tax currently payable and deferred tax.

Tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method.

Smith & Williamson I M Limited

Notes to the financial statements (continued)

for the year ended 30 April 2018

Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates except where the company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised, provided these rates are enacted or substantively enacted by the balance sheet date. Deferred tax is charged or credited to the income statement, except when it relates to items charged or credited directly to other comprehensive income or equity, in which case it is dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the company intends to settle its current tax assets and liabilities on a net basis.

Cash and cash equivalents

For the purpose of preparation of the cash flow statement, cash and cash equivalents include cash at bank and in hand and short-term deposits with an original maturity period of three months or less. Bank overdrafts that are an integral part of the company's cash management are included in cash and cash equivalents where they have a legal right of set-off against positive cash balances and an intention to settle on a net basis, otherwise bank overdrafts are classified as borrowings.

Investments in subsidiaries

Investments in subsidiaries are held at cost less any accumulated impairment losses.

Financial instruments

Financial assets and liabilities are recognised in the company's balance sheet when the company becomes a party to the contractual provisions of the instrument. They are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

Financial assets

The company has one type of financial asset, being loans and receivables. The classification of financial assets is determined at initial recognition.

Receivables

Receivables are carried at amortised cost using the effective interest method, less any impairment recognised to reflect irrecoverable amounts. Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and where there is no intention of trading in those instruments.

Financial liabilities

Financial liabilities are initially recognised at fair value and classified as fair value through profit and loss (if designated as such or held for trading) or at amortised cost.

The company has not designated any liabilities as fair value through profit and loss and holds no liabilities as held for trading.

Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

Dividends

Distributions payable to the company's shareholders are recognised as a liability and deducted from equity in the period in which the shareholders' right to receive payment is established.

Smith & Williamson I M Limited

Notes to the financial statements (continued)

for the year ended 30 April 2018

2. Critical accounting judgements and key sources of estimation uncertainty

The company makes estimates and assumptions that could affect the reported amounts of assets and liabilities within the next financial year. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

3. Investment income

	2018	2017
	£'000	£'000
Allocation of profits from related parties		
Smith & Williamson Investment Management LLP	100	6,002

4. Operating expenses

	2018	2017
	£'000	£'000
Auditors' remuneration for the audit of the company's financial statements	3	-

5. Taxation

	2018	2017
	£'000	£'000
Current tax	4,536	3,891
Deferred tax	(3,067)	(1,628)
	1,469	2,263

UK corporation tax is calculated at 19.0% (2017: 19.9%) of the estimated assessable profit for the year.

The tax on the company's profit before tax differs from the theoretical amount that would arise using the weighted average tax rate applicable to profits of the company as follows:

	2018	2017
	£'000	£'000
Profit before tax	97	6,003
Tax calculated at UK tax rate 19.0% (2017: 19.9%)	18	1,196
Tax on unallocated profit from group partnerships	1,451	1,405
Overprovision in respect of prior years	-	(338)
	1,469	2,263

6. Investments in subsidiaries

Name	Place of incorporation	Ordinary shares/ share units % held	2018	2017
			£'000	£'000
Smith & Williamson Investment Management LLP	England and Wales	93	28,185	26,969

The registered office for the subsidiary is 25 Moorgate, London, EC2R 6AY, England.

During the year, the company purchased 178,680 (2017: 138,862) share units for £891,000 (2017: £745,000) and £325,000 of B capital (2017: £362,500) from retiring individual members of Smith & Williamson Investment Management LLP.

Smith & Williamson I M Limited

Notes to the financial statements (continued)

for the year ended 30 April 2018

7. Cash and cash equivalents

	2018	2017
	£'000	£'000
Cash at bank	132	623

For the purpose of the cash flow statement, cash and cash equivalents comprise the above balances which have a maturity of three months or less.

8. Accruals, deferred income, provisions and other payables

	2018	2017
	£'000	£'000
Amount due to group companies	8,091	2,758
Accruals	3	-
Current liability	8,094	2,758

9. Deferred tax

The following are the major deferred tax liabilities and assets recognised by the company, and the movements thereon, during the current and prior reporting periods.

	Allocation of profits £'000
At 1 May 2016	605
Effect of change in tax rate to the income statement	(2)
Debit to the income statement for the year	1,630
At 30 April 2017	2,233
Debit to the income statement for the year	3,067
At 30 April 2018	5,300

	2018	2017
	£'000	£'000
Current assets		
Deferred tax assets	5,300	2,233

10. Share capital

The company did not have any contractual employees during the current or prior year.

Smith & Williamson I M Limited

Notes to the financial statements (continued)

for the year ended 30 April 2018

16. Capital management

Accounting capital is defined as the total of share capital, retained earnings and other reserves. Total capital at 30 April 2018 was £23.4 million (2017: £24.8 million). The company's objectives when managing capital are to:

- safeguard the company's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for its other stakeholders; and
- maintain a strong capital base to support the future strategy and development of the business.

17. Financial risk management

The company has a formal structure for managing risk, including established risk limits, reporting lines, mandates and other control procedures.

The company does not use derivative financial instruments for risk management purposes.

a) Credit risk

The only credit risk the company is exposed to is cash balances, and as such credit risk is not considered to be material.

b) Liquidity risk

Liquidity risk is the risk that the company is unable to meet its obligations as they fall due. The directors are of the opinion that the company does not have any significant liquidity risk.

c) Market risk

Interest rate risk

The company has no significant interest rate risk.

Foreign exchange risk

The company has no significant foreign exchange risk.

18. Ultimate controlling party

At 30 April 2018, the company's immediate and ultimate parent undertaking and controlling party was Smith & Williamson Holdings Limited, a company incorporated and domiciled in England and Wales. Smith & Williamson Holdings Limited is the parent undertaking of the largest and smallest group of undertakings for which group financial statements are drawn up and of which the company is a member.

Copies of the group annual report and accounts, which include the results of the company, are available from the Company Secretary, Smith & Williamson Holdings Limited, 25 Moorgate, London EC2R 6AY.
