NOTES TO THE ABBREVIATED ACCOUNTS

PERIOD FROM 1 OCTOBER 2014 TO 31 MARCH 2015

1. Accounting policies

Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents amounts receivable for the sale of property during the year, net of VAT.

Rental income is recognised on an accruals basis at the point at which the company has fulfilled its contractual obligations.

Fixed assets

Investment properties are included in the balance sheet at their cost value.

Depreciation

Investment properties are shown at cost and are not depreciated.

This is in accordance with the FRSSE which, unlike Schedule 1 of the Small Companies and Groups (Accounts and Directors' Reports) Regulations 2008, does not require depreciation of investment properties. Investment properties are held for their investment potential and not for use by the company and so their cost is of greater relevance. The departure from the provisions of the Act is required to give a true and fair view.

Stocks

Stocks are valued at the lower of cost and net realisable value.

Financial instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all of its financial liabilities.
