PART 1 - GENERAL DESCRIPTION OF THE COMPANY'S ACTIVITIES AND IMPACT

In the space provided below, please insert a general account of the company's activities in the financial year to which the report relates, including a description of how they have benefited the community.

Throughout the year almost 1000 adults have benefited from services provided by Health Junction as the organisation has remained focussed on reaching and delivering services to people in Wirral who live in the bottom 20% of deprived areas (according to the UK Index of Multiple Deprivation: IMD).

During 2017-2018 Health Junction, working in partnership with Age UK, Barnardos, Wirral MIND and WIRED (Carers organisation) was awarded the Early Intervention and Prevention Service for Wirral for Vulnerable People/Young People and Carers (Adults and Young Carers). This contract secures funding for the continuing delivery of the 'Breeze' Programme in Wirral - a community programme for individuals managing long-term health conditions such as diabetes, coronary heart disease, chronic respiratory conditions, depression and other mental health conditions. The programme offers specialist advice from dieticians, mental health practitioners, debt and welfare advice and includes First Aid, community information, mindfulness and physical exercise. The impact of this programme is evidenced by the participants reporting statistically significant improvements in levels of depression, wellbeing, self-efficacy and social support all of which contribute to greater health-related quality of life (HRQOL).

Health Junction has continued to develop and deliver programmes of training across the Liverpool City Region. Much of this delivery has a focus on mental health and the impact of long-term health conditions for people who are in receipt of benefits.

Our ethos of collaborative working has continued and new partnerships have been developed with the Department of Work and Pensions and Wirral's Adult Lifelong Learning Service.
