The directors are satisfied that the company is entitled to exemption from the requirement to obtain an audit under section 477 of the Companies Act 2006.

Members have not required the company to obtain an audit in accordance with section 476 of the Act.

The directors acknowledge their responsibilities for complying with the requirements of the Companies Act 2006 with respect to accounting records and the preparation of accounts.

The accounts have been prepared in accordance with the provisions in Part 15 of the Companies Act 2006 applicable to companies subject to the small companies regime.

R. Pathan

Director

Approved by the board on 30 March 2015

BLUEKIT MEDICAL LIMITED

Notes to the Abbreviated Accounts

for the year ended 30 June 2014

1 Accounting policies

Basis of preparation

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Going concern

The company has made a nominal loss during the year. The management continued to maintain a monthly cash flow forecast extending to 31 December 2016 which takes into account an extensive list of micro-economic and macro-economic assumptions. Special consideration is given to the key factors such as stability of cost base, risk of losing key suppliers, infringement of patent rights, adequacy of the company's insurance policies and borrowing requirements.

Further considerations were given to the exposure of the company's contingent liabilities such as cost of warranty and returns. A plan has been extended to enable the company to change the timing of its cash flows so that it could respond to the unexpected requirements and available opportunities. The initial funding of the company has been met by the management team. The company has already opened its negotiations with the bank for financing a part of mass production of its products. However, from the initial discussions with its bankers about the future borrowing needs, no matters have been drawn to the management attention to suggest that the borrowing will not be forthcoming or the facility will not be extended on acceptable terms.

The directors have therefore a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis of accounting in preparing the annual financial statements.

Turnover

Turnover represents the value, net of value added tax and discounts, of goods provided to customers and work carried out in respect of services provided to customers.

Depreciation

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives.

Plant and machinery	25% straight line

Deferred taxation

Full provision is made for deferred taxation resulting from timing differences between the recognition of gains and losses in the accounts and their recognition for tax purposes. Deferred taxation is calculated on an un-discounted basis at the tax rates which are expected to apply in the periods when the timing differences will reverse.

Foreign currencies

Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the balance sheet date. All differences are taken to the profit and loss account.
