Notes to the Abbreviated Accounts for the period ended 31 March 2015**1 Accounting Policies****Basis of measurement and preparation of accounts**

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities effective April 2008.

Turnover policy

Turnover represents the value, excluding Value Added Tax, of the sales to customers during the year for the provision of consultancy services.

Other accounting policies**Going concern**

The director has prepared the financial statements on a going concern basis on the basis of a reasonable expectation that the company will have adequate resources to continue in operational existence for the foreseeable future. The director has obtained an undertaking from the shareholder to provide such financial assistance as is necessary in order to enable the company to meet its liabilities as they fall due.

Taxation

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the profit and loss account because it excludes certain items of income and expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The company's tax liability is calculated using tax rates that have been enacted or substantially enacted by the balance sheet date.

Accrued income

Accrued income relates to the amount of work carried out by contractors but unbilled at the year end. It is stated at the director's assessment of its recoverable value. Associated with the accrued income is an accrual for the cost of the purchase of the contractors.
