Accounting Policies

Year ended 31 March 2021

Basis of preparation

The financial statements have been prepared on the historical cost basis.

Revenue recognition

Turnover is the value of services provided during the period.

Taxation

Current tax is recognised on taxable profit for the current and past periods. Deferred tax is recognised in respect of all timing differences at the reporting date.

Tangible assets

Tangible assets are initially recorded at cost, and subsequently stated at cost less any accumulated depreciation.

Depreciation

Depreciation is calculated so as to write off the cost or valuation of an asset, less its residual value, over the useful economic life of that asset as follows:

Motor vehicles	-	25% straight line
Equipment	-	25% straight line

Finance leases and hire purchase contracts

Assets held under finance leases and hire purchase contracts are recognised in the statement of financial position as assets and liabilities at the lower of the fair value of the assets and the present value of the minimum lease payments, which is determined at the inception of the lease term. Any initial direct costs of the lease are added to the amount recognised as an asset. Lease payments are apportioned between the finance charges and reduction of the outstanding lease liability using the effective interest method. Finance charges are allocated to each period so as to produce a constant rate of interest on the remaining balance of the liability.
