## **NOTES TO THE ABBREVIATED FINANCIAL STATEMENTS**

### **FOR THE PERIOD TO 31ST MARCH 2014**

#### **1. ACCOUNTING POLICIES**

##### **a) *Bases***

The financial statements are prepared under the historical cost convention and include the results of the Company's operations which are described in the Director's Report and all of which are continuing. All applicable accounting policies have been complied with or departures disclosed.

The Company has taken advantage of the exemption in Financial Reporting Standard No. 1 from the requirement to produce a cash flow on the grounds that it is a small Company.

##### **b) *Turnover***

Turnover represents the value of sales invoiced during the period net of Value Added Tax and all discounts

##### **c) *Fixed assets***

###### ***Tangible fixed assets and depreciation***

Tangible fixed assets are stated at cost less depreciation.

Depreciation is provided to write off the cost of fixed assets, less their estimated residual values, over the estimated life of the assets at the following annual rates:-

|                         |                        |
|-------------------------|------------------------|
| Plant & equipment ..... | 25% on net book values |
| Motor vehicles .....    | 25% on net book values |

##### **d) *Stocks***

Stocks are stated at the lower of cost and net realisable value after making due allowance for obsolete and slow moving stocks.

##### **e) *Deferred taxation***

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date, however, deferred tax assets are recognised only to the extent that the director considers it more likely than not that there will be suitable taxable profits from which future reversal of the underlying timing differences can be deducted.

In accordance with FRS 19, deferred tax is recognised on revaluation gains. Deferred tax is measured on a non-discounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

##### **f) *Foreign currencies***

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the Balance Sheet date. Transactions in foreign currencies are translated into sterling at the rate ruling on the date of the transaction. Exchange differences are taken into account in arriving at the operating profit.
