Sustainable Communities for Leeds (Finance) Plc

Strategic report for the year ended 31 March 2016

The directors present their strategic report together with the audited financial statements for the year ended 31 March 2016.

Business review and future developments

The principal activity of the company is the undertaking of an issue of bonds and on-lending the proceeds of the bond issue to Sustainable Communities for Leeds Limited. The issue of bonds was effected on 11 July 2013 and the proceeds of the issue were loaned to Sustainable Communities for Leeds Limited on the same date.

Sustainable Communities for Leeds (Finance) Plc, acts as a fundraising company for Sustainable Communities for Leeds group of companies. The principal activity of Sustainable Communities for Leeds Limited is the refurbishment of housing stock in the Beeston, Little London and Holbeck areas of Leeds, alongside demolition of properties and construction of new-build properties. The construction period will last for 44 months to September 2017. During this time the company will also provide facilities management services, which increase as each phase of construction is certified. The operational phase of the project is planned to continue until September 2033.

The forthcoming year is expected to bring the continued delivery of high quality services to the client of Sustainable Communities for Leeds Limited, with business performance meeting shareholder expectations.

Principal risks and uncertainties

The company has taken on the activity as detailed above and the group in which it sits is risk averse in its trading relationships with its customer, funders and sub-contractors as determined by the terms of their respective detailed PFI contracts. In extreme circumstances, the group could be exposed to subcontractor failure to perform their obligations. The financial risks and the measures taken to mitigate them are as detailed in the following section.

Financial risk management

The company has exposures to a variety of financial risks which are managed with the purpose of minimising any potential adverse effect on the company's performance. The board has policies for managing each of these risks and they are summarised below:

Interest rate risk

The Bond and subordinated debt interest have been fixed. Details of these borrowings can be found in notes 6 and 8 to the financial statements.

Liquidity risk

The company acts as a fundraising company for the Sustainable Communities for Leeds group of companies. The funds raised from the issue of Bonds, subordinate debt and equity are passed through to Sustainable Communities for Leeds Limited. When payments are made to bond holders and finance providers these are passed from Sustainable Communities for Leeds Limited through the company. No cash is held within the company.

Credit risk

The Fixed Rate Guarantee Bonds are listed on the Irish Stock Exchange. The Bonds are guaranteed by an institution of a suitable credit quality. Each year an annual review is carried out by Moody's and Standard & Poor's to assess the performance of the company.

Market risk

Whilst the Bond is listed on the Irish Stock Exchange, the repayments on the Bond are fixed and as such the Board does not consider that they are at risk from movements in the market valuation.

Key performance indicators

The company's operations are managed under the supervision of its shareholders and funders and are largely determined by the detailed terms of the PFI contract which stipulates key performance criteria on operational activities performed by Sustainable Communities for Leeds Limited. For this reason, the company's directors believe that further key performance indicators for the company are not necessary or appropriate for an understanding of the performance or position of the business.

The company's performance during the period and financial position at 31 March 2016 is shown on pages 7 and 8.

Sustainable Communities for Leeds (Finance) Plc

Notes forming part of the financial statements for the year ended 31 March 2016

1 Accounting policies

Sustainable Communities for Leeds (Finance) Plc is a company incorporated in England and Wales under the Companies Act. The address of the registered office is given on the contents page and the nature of the group's operations and its principal activities are set out in the strategic report.

The financial statements have been prepared in accordance with FRS 102, the Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland. The date of transition to FRS 102 is 1 April 2014.

FRS 102 is mandatory for accounting periods beginning on or after 1 January 2015 but may be applied early to periods ending on or after 31 December 2012. Sustainable Communities for Leeds (Finance) PLC has taken the option to apply the standard early in the preparation of these financial statements. Information on the impact of first-time adoption of FRS 102 is given in note 17.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires Group management to exercise judgement in applying the Group's accounting policies.

Cash flow statement

As permitted by FRS 102 Section 1, the company has not prepared a cash flow statement as the company is a wholly owned subsidiary of Sustainable Communities for Leeds (Holdings) Limited, which itself is incorporated and registered in England and Wales and produces group financial statements in accordance with the Companies Act 2006, which include a consolidated group cash flow statement.

Going concern

The financial statements have been prepared on a going concern basis. The directors have prepared projected cash flow information for at least twelve months from the date of their approval of these financial statements. On the basis of this cash flow information, the directors consider that the group will continue to operate within the long term facility currently agreed. In addition, during the operational phase of the project, sufficient cash flow has been, and is, projected to continue to be generated to allow the group to meet its liabilities as they fall due for payment. Accordingly, despite the context of an uncertain economic climate the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future and therefore adopt the going concern basis in preparing the annual report and financial statements.

Finance costs

In accordance with FRS 102 Section 25 "Borrowing costs", all issue costs, which are directly attributable to the issuing of the debt, are offset against the related borrowings within creditors.

Financial instruments - Bond valuation

The Bond is valued at amortised cost in line with Section 11 of FRS 102.
