Notes to the Abbreviated Accounts for the period ended 31 August 2014**1 Accounting Policies****Basis of measurement and preparation of accounts**

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities effective April 2008.

Turnover policy

Turnover comprises the invoiced value of goods and services supplied by the company, net of Value Added Tax

Tangible assets depreciation policy

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost or valuation of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Plant and Machinery 25% reducing balance
 Fixtures and Fittings 15% straight line basis
 Motor vehicles 25% reducing balance

Other accounting policies**Deferred taxation**

Provision is made for taxation deferred as a result of material timing differences between the incidence of income and expenditure for taxation purposes, using the liability method, only to the extent that, in the opinion of the directors, there is a reasonable probability that a liability or asset will crystallise in the near future.

Leasing

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible fixed assets and depreciated over the shorter of the lease term and their useful lives. Finance leases are those where substantially all of the benefits and risks of ownership are assumed by the company. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.
