**NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE PERIOD 13 MAY 2014 TO 31 MAY 2015**

1. ACCOUNTING POLICIES

Basis of preparing the financial statements

The company is in a start up situation and is able to rely upon the support of its directors to finance its working capital requirements.

The directors believe that the company is well placed to manage its business risks successfully and they have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Therefore, they have continued to adopt the going concern basis of accounting in preparing the annual financial statements.

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

The company has not traded in the period.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. Timing differences arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements. Deferred tax is calculated at the rate at which it is anticipated the timing differences will reverse and is measured on a non-discounted basis. Deferred tax assets are only recognised to the extent that they are regarded as recoverable.
