Capital and reserves			
Called up share capital	6	1	1
Profit and loss account		(569,537)	(461,003)
		<u>(569,536)</u>	<u>(461,002)</u>

The director considers that the company is entitled to exemption from audit under section 477 of the Companies Act 2006 and members have not required the company to obtain an audit for the year in question in accordance with section 476 of Companies Act 2006.

The director acknowledges his responsibilities for complying with the requirements of the Companies Act 2006 with respect to accounting records and the preparation of financial statements.

The financial statements have been prepared in accordance with the provisions applicable to companies subject to the small companies' regime within Part 15 of the Companies Act 2006 and in accordance with Section 1A of Financial Reporting Standard 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland.

The financial statements have been delivered in accordance with the provisions applicable to companies subject to the small companies' regime. The profit and loss account and the director's report have not been filed.

The financial statements were approved and authorised for issue by the sole director.

J M Kelly
Director

Date: 29/3/19

The notes on pages 3 to 9 form part of these financial statements.

ATOMO LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2018

1. General information

Atomo Limited is a private company limited by shares incorporated in England. Its registered office is 16 Great Queen Street, Covent Garden, London, WC2B 5AH and its principal place of business is Bloxham Mill Business Centre, Barford Road, Bloxham, Oxfordshire, OX15 4FF.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The following principal accounting policies have been applied:

2.2 Going concern

The company is in the start up phase of operations and continues to be loss making. The company has made a loss of £108,535 during the year and has net liabilities of £569,536 as at 30 June 2018. The company is reliant upon the continued support of its parent entity, Atomo Diagnostics Pty Limited, and the director has received a letter of support confirming such support for a period of 12 months from the date of approval of these financial statements.

The group recorded a loss for the year ended 30 June 2018 of AU \$4,745,343 and had cash outflows from operating activities of AU \$5,560,317. The group undertook a capital raising in December 2018 and raised AU \$3,900,000. A further capital raise is required during the first six months of the next financial year. This is expected to raise sufficient capital to fund continuing operations and activities for a period of at least 12 months from the signing of this financial report.

However, in the event that the capital raising does not proceed or that funds raised are significantly lower than targeted, the group will need to manage its cash flows and develop plans to seek alternative sources of funding. While the directors are confident that there are a range of alternative options available and believe that the group has a track record of tightly managing costs and extending or raising finance when required, there are currently no detailed plans to undertake these activities.

After considering the above, the directors have concluded that the group will be able to fulfil all obligations as and when they fall due to the foreseeable future, being a period of at least one year from the date of approval of these financial statements. However, in the event that the capital raisings do not raise the required funding, there is a material uncertainty that may cast significant doubt about the group's ability to continue as a going concern.

No adjustment has been made to the financial report relating to the recoverability and classification of liabilities that might be necessary should the group not continue as a going concern.

ATOMO LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2018

2. Accounting policies (continued)

2.3 Revenue

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. Revenue is measured as the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes. The following criteria must also be met before revenue is recognised:

Sale of goods

Revenue from the sale of goods is recognised when all of the following conditions are satisfied:

- the company has transferred the significant risks and rewards of ownership to the buyer;
- the company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the company will receive the consideration due under the transaction; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Rendering of services

Revenue from a contract to provide services is recognised in the period in which the services are provided in accordance with the stage of completion of the contract when all of the following conditions are satisfied:

- the amount of revenue can be measured reliably;
- it is probable that the company will receive the consideration due under the contract;
- the stage of completion of the contract at the end of the reporting period can be measured reliably; and
- the costs incurred and the costs to complete the contract can be measured reliably.

2. Accounting policies (continued)

2.4 Financial instruments

The company has elected to apply Sections 11 and 12 of FRS 102 in respect of financial instruments.

Financial assets and financial liabilities are recognised when the company becomes party to the contractual provisions of the instrument.

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

The company's policies for its major classes of financial assets and financial liabilities are set out below.

Financial assets

Basic financial assets, including trade and other debtors and cash and bank balances, are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest for a similar debt instrument. Financing transactions are those in which payment is deferred beyond normal business terms or is financed at a rate of interest that is not a market rate.

Such assets are subsequently carried at amortised cost using the effective interest method, less any impairment.

Financial liabilities

Basic financial liabilities, including trade creditors and loans from fellow group companies, are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument. Financing transactions are those in which payment is deferred beyond normal business terms or is financed at a rate of interest that is not a market rate.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Impairment of financial assets

Financial assets measured at cost and amortised cost are assessed at the end of each reporting period for objective evidence of impairment. If objective evidence of impairment is found, an impairment loss is recognised in the profit and loss account.

For financial assets measured at cost less impairment, the impairment loss is measured as the difference between the asset's carrying amount and the best estimate of the amount the company would receive for the asset if it were to be sold at the reporting date.

For financial assets measured at amortised cost, the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated cash flows discounted at the asset's original effective interest rate. If the financial asset has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract.

If there is a decrease in the impairment loss arising from an event occurring after the impairment was recognised, the impairment is reversed. The reversal is such that the current carrying amount does not exceed what the carrying amount would have been had the impairment not previously been recognised. The impairment reversal is recognised in profit or loss.

ATOMO LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2018

2. Accounting policies (continued)

2.4 Financial instruments (continued)

Derecognition of financial assets and financial liabilities

Financial assets are derecognised when (a) the contractual rights to the cash flows from the asset expire or are settled, or (b) substantially all the risks and rewards of the ownership of the asset are transferred to another party or (c) despite having retained some significant risks and rewards of ownership, control of the asset has been transferred to another party who has the practical ability to unilaterally sell the asset to an unrelated third party without imposing additional restrictions.

Financial liabilities are derecognised when the liability is extinguished, that is when the contractual obligation is discharged, cancelled or expires.

Offsetting of financial assets and financial liabilities

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is an enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

2.5 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

2.6 Share capital

Ordinary shares are classified as equity.

ATOMO LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2018

2. Accounting policies (continued)

2.7 Foreign currency translation

Functional and presentation currency

The company's functional and presentational currency is Sterling (£).

Transactions and balances

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions.

At each period end foreign currency monetary items are translated using the closing rate. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the profit and loss account except when deferred in other comprehensive income as qualifying cash flow hedges.

Foreign exchange gains and losses that relate to borrowings and cash and cash equivalents are presented in the profit and loss account within 'interest receivable and similar income' or 'interest payable and similar expenses'. All other foreign exchange gains and losses are presented in the profit and loss account within 'administrative expenses'.

2.8 Finance costs

Finance costs are charged to the profit and loss account over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument.

ATOMO LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2018

2. Accounting policies (continued)

2.9. Current and deferred taxation

The tax expense for the year comprises current and deferred tax. Tax is recognised in the profit and loss account, except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

Current tax is the amount of income tax payable in respect of taxable profit for the year or prior years.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the balance sheet date in the countries where the company operates and generates income.

Deferred tax arises from timing differences that are differences between taxable profits and total comprehensive income as stated in the financial statements. These timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in the financial statements.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the balance sheet date, except that:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits; and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

3. Employees

The average monthly number of employees, including directors, during the year was 1 (2017 - 2).

4. Debtors

	2018 £	2017 £
Trade debtors	42,773	7,952
Other debtors	10,377	3,240
Prepayments and accrued income	2,581	2,581
	<u>55,731</u>	<u>13,773</u>

ATOMO LIMITED

5. Creditors: Amounts falling due within one year

	2018 £	2017 £
Trade creditors	123,070	13,637
Amounts owed to group undertakings	460,226	443,399
Accruals and deferred income	71,194	59,045
	<u>654,490</u>	<u>516,081</u>

6. Share capital

	2018 £	2017 £
Allotted, called up and fully paid		
1 ordinary share of £1	<u>1</u>	<u>1</u>

7. Related party transactions

The company has taken advantage of the exemption contained in FRS 102 section 33 "Related Party Disclosures" from disclosing transactions with entities which are a wholly owned part of the group.

8. Controlling party

The smallest group for which consolidated financial statements are drawn up is headed by Atomo Diagnostics Pty Limited whose registered office is Level 2, 701-703 Parramatta Road, Leichhardt, NSW 2040.
