**NOTES TO THE ACCOUNTS
FOR THE YEAR ENDED 31/03/2026**

1. ACCOUNTING POLICIES

1a. Basis Of Accounting

The accounts have been prepared under the historical cost convention.

The accounts have been prepared in accordance with FRS102 section 1A - The Financial Reporting Standard applicable in the UK and Republic of Ireland and the Companies Act 2006 .

1b. Depreciation

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives.

Land And Buildings	straight line straight line over expected useful life
Plant and Machinery	reducing balance 25 & 15%
Equipment	straight line 20%

1c. Intangible Assets

Development expenditure is normally written off in the year of expenditure, however expenditure incurred on specific projects is capitalised when recoverability can be foreseen with reasonable certainty and is amortised in relation to sales from such projects.

1d. Pension Costs

The company operates a defined contribution pension scheme. The pension charge represents the amounts payable by the company to the fund in respect of the year.

1e. Leasing Commitments

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible fixed assets. Assets acquired under finance leases are depreciated over the shorter of the lease term and their useful lives. Assets acquired under hire purchase contracts are depreciated over their useful lives. Finance leases are those where substantially all of the benefits and risks of ownership are assumed by the company. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged to profit and loss account on a straight line basis.

1f. Financial Instruments

Basic financial assets, which include debtors and cash and bank balances, are initially measured at transaction price. Debtors do not carry interest and are stated at their nominal value. Appropriate allowances for estimated irrecoverable amounts are recognised in the profit and loss account when there is objective evidence that the asset is impaired.

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

Basic financial liabilities, including creditors, are recognised at transaction price. Creditors are not interest bearing and are stated at their normal value.

1g. Leases

Assets held under finance leases and hire purchase contracts are capitalised in the balance sheet at their fair value and depreciated over their expected useful lives. The interest element of leasing payments represents a constant proportion of the capital balance outstanding and is charged to the profit and loss account over the period of the lease. All other leases are regarded as operating leases and the payments made under them are charged to the profit and loss account on a straight line basis over the lease term.
