PART 1 - GENERAL DESCRIPTION OF THE COMPANY'S ACTIVITIES AND IMPACT

In the space provided below, please insert a general account of the company's activities in the financial year to which the report relates, including a description of how they have benefited the community.

The Data Protection Foundation CIC (hereafter DPF) was established to support more detailed jurisprudence in the substantive and procedural law associated with data protection regulation in the UK and the EU more generally.

In the financial year ending 31 August 2022, the DPF engaged in the following activities:

- Conducted research into the feasibility of decentralised finance of prosocial collective actions (funded by a grant from the Algorand Foundation);
- Developed relationships with UK and EU law firms engaged in collective actions against data protection infringements;
- Developed relationships with UK barristers specialising in data protection and privacy issues;
- Developed relationships with UK and EU not-for-profits working in data protection and privacy issues;

The grant funding from the Algorand Foundation was received in Algorands. The value of this currency deteriorated significantly during the year — this resulted in the DPF making a small trading loss because of currency exchange losses.

PART 2 – CONSULTATION WITH STAKEHOLDERS – Please indicate who the company's stakeholders are; how the stakeholders have been consulted and what action, if any, has the company taken in response to feedback from its consultations? If there has been no consultation, this should be made clear.

The DPF's stakeholders are data subjects, law firms, not-for-profits, and other professionals engaged in data protection-related issues in the UK and EU. The DPF has communicated with representatives of such stakeholders by email, videoconference, and in-person meetings. The learnings from these consultations have been incorporated into the DPF's research on the feasibility of decentralised finance of prosocial collective actions in various jurisdictions in the UK, EU, and US.
