PPC TOPCO LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 SEPTEMBER 2025

1. Accounting policies

The PPC Topco Limited (the 'company') is a limited liability company incorporated and domiciled in the United Kingdom. The address of its registered office is disclosed on the company information page.

The financial statements are prepared in sterling (£), which is the functional currency of the company. The financial statements are for the year ended 30 September 2025 (2024 year ended 30 September 2024).

1.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The following principal accounting policies have been applied:

1.2 Going concern

At the balance sheet date, the company had a positive net asset position. At the time of signing these accounts, the directors have considered the going concern position, and consider that this does indicate that the company will continue to trade for a period of at least 12 months from the date of signing these accounts.

On that basis, the directors have prepared these financial statements on a going concern basis.

1.3 Valuation of investments

Investments in subsidiaries are initially valued at cost and reviewed annually for signs of impairment. If an impairment loss is identified, this is recognised immediately in the profit and loss account and the value of the investment is reduced accordingly.

1.4 Financial Instruments

The company only enters into basic financial instrument transactions that result in the recognition of financial assets and liabilities such as loans with related parties.

All financial assets and liabilities are initially measured at transaction price and subsequently measured at amortised cost.

For financial assets measured at cost less impairment, the impairment loss is measured as the difference between an asset's carrying amount and best estimate of the recoverable amount, which is an approximation of the amount that the company would receive for the asset if it were to be sold at the balance sheet date.

1.5 Dividends

Equity dividends are recognised when they become legally payable. Interim equity dividends are recognised when paid.

PPC TOPCO LIMITED

NOTES TO THE FINANCIAL STATEMENTS
