BRUNSWICK MANOR LIMITED

NOTES TO THE ABBREVIATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 JULY 2013

1 Principal accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements.

1.1 Basis of preparation

The financial statements have been prepared in accordance with United Kingdom generally accepted accounting practice and Northern Irish statute comprising the Companies Act 2006. Accounting standards generally accepted in the United Kingdom, for preparing financial statements giving a true and fair view, are those published by the Institute of Chartered Accountants in Ireland and issued by the Accounting Standards Board.

1.2 Cash flow

The financial statements do not include a cash flow statement because the company, as a small reporting entity, is exempt from the requirement to prepare such a statement under Financial Reporting Standard 1: "Cash Flow Statements".

1.3 Turnover

Turnover is stated net of trade discounts, VAT and similar taxes and derives from the provision of goods and services falling within the company's ordinary activities.

1.4 Tangible fixed assets and depreciation

All tangible fixed assets are initially recorded at historic cost. Depreciation is provided on all tangible fixed assets, other than freehold land and investment properties, at rates calculated to write off the cost or valuation, less estimated residual value, of each asset systematically over its expected useful life, as follows:

Office extension	2% straight line
Plant and machinery	20% straight line
Motor vehicles	25% reducing balance

1.5 Investment Properties

Investment properties are included in the balance sheet at their open market value. Depreciation is provided only on those investment properties which are leasehold and where the unexpired lease term is less than 20 years.

Although this accounting policy is in accordance with the applicable accounting standard, SSAP 19, Accounting for investment properties, it is a departure from the general requirement of the Companies Act 2006 for all tangible assets to be depreciated. In the opinion of the directors compliance with the standard is necessary for the financial statements to give a true and fair view. Depreciation or amortisation is only one of many factors reflected in the annual valuation and the amount of this which might otherwise have been charged cannot be separately identified or quantified.

1.6 Deferred taxation

Full provision for deferred tax assets and liabilities is provided at current tax rates on differences that arise between the recognition of gains and losses in the financial statements and their recognition in the tax computation, except for differences arising on the revaluation of fixed assets (if no commitment to sell), or gains on any asset sold that will benefit from rollover relief.
