ACCOUNTING POLICIES

for the year ended 31 May 2011

Basis of preparation

The financial statements have been prepared in accordance with generally accepted accounting principles in the UK and United Kingdom statute comprising the Companies Act 2006. They comply with the financial reporting standards of the Accounting Standards Board. The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements.

Cash flow statement

The company has availed of the exemption in FRS 1 from the requirement to produce a cash flow statement because it is classed as a small company.

Turnover

Turnover represents the total invoice value, excluding value added tax, of sales made during the year.

Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost or at valuation, less accumulated depreciation. The charge to depreciation is calculated to write off the original cost or valuation of tangible fixed assets, less their estimated residual value, over their expected useful lives as follows:

Office Fixtures and Fittings	- 20% Reducing Balance
Computer Equipment	- 25% Reducing Balance
Website software	- 25% Straight Line

Taxation

Current tax represents the amount expected to be paid or recovered in respect of taxable profits for the year and is calculated using the tax rates and laws that have been enacted or substantially enacted at the balance sheet date.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more tax in the future, or a right to pay less tax in the future. Timing differences are differences between the company's taxable profits and its results as stated in the financial statements.

Deferred tax is measured on an undiscounted basis at the tax rates that are anticipated to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Foreign currencies

Monetary assets and liabilities denominated in foreign currencies are translated at the rates of exchange ruling at the balance sheet date. Transactions, during the year, which are denominated in foreign currencies are translated at the rates of exchange ruling at the date of the transaction. The resulting exchange differences are dealt with in the profit and loss account.

Amjam Limited**NOTES TO THE ABBREVIATED FINANCIAL STATEMENTS**

for the year ended 31 May 2011

1. GOING CONCERN

The accounts have been prepared on the assumption that the company is able to carry on business as a going concern. The company has a £11,601 deficit on the balance sheet and made a loss this year. However, all of the long term funding for the company is by way of a director's loan account. The director has made a commitment not to seek repayment of the loan within the foreseeable future. The director is confident that the company will trade out of its current difficulties.
