**NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED 31 MARCH 2011****1 ACCOUNTING POLICIES****Accounting convention**

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008) and the requirements of the Statement of Recommended Practice, 'Accounting by Limited Liability Partnerships'

Turnover

Turnover represents amounts chargeable to clients for the provision of professional services that have been provided during the year, excluding Value Added Tax. Income is recognised at the point where the right to consideration arises and the excess over invoiced amounts is shown within accrued income.

Depreciation

Depreciation is provided for at the following annual rates in order to write off the cost of each asset over its estimated useful life.

Motor vehicles	-25% reducing balance
Fixtures and fittings	-10% reducing balance
Computers	-25% straight line

Goodwill

Goodwill arises as a direct consequence of the requirement under the Statement of Recommended Practice to account for post-retirement annuities in the LLP financial statements. It is being amortised on a straight line basis over 20 years.

Stocks

Stocks are valued at the lower of cost and net realisable value.

Hire purchase commitments

Tangible fixed assets held under hire purchase contracts are capitalised and depreciated over their estimated useful lives. The corresponding obligations are treated in the balance sheet as liabilities. Finance charges are allocated to accounting periods over the term of the contracts.

Operating leases

Rentals applicable to operating leases where substantially all the benefits and risks of ownership remain with the lessor are charged to the profit and loss account on a straight line basis.

Pensions

The LLP makes contributions to employees' personal pension schemes. Contributions payable for the year are charged in the profit and loss account.

Post-retirement payments to members

Under the terms of the membership agreement the Limited Liability Partnership has a liability to make post-retirement payments to members after they have retired from the partnership.

To the extent that the right to these payments accrues over the period in which the individual serves as a member, the costs are recognised each year during that period. These amounts are included as 'Members' remuneration charged as an expense' in the profit and loss account.

The amount provided is included in 'Loans and other debts due to members' while the member remains a member of the Limited Liability Partnership. Upon retirement the outstanding liability is transferred to provisions and disclosed as post retirement payments to former members.
