Notes to the financial statements

For the period ended 5 April 2011

1. ACCOUNTING POLICIES

Basis of Accounting

The accounts are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Investments

Land and buildings and fixed asset investments are shown at their most recent valuation. Any aggregate surplus or loss arising from changes in market value is transferred to a revaluation/impairment reserve. Current asset investments are stated at the lower of cost and net realisable value.

Allocation of profits and losses

Members from time to time may make drawings, which represent allocated profits paid on account. The level and timing of these distributions is determined by management taking into account the LLP's cash requirements.

This allocation to the members of residual profits for the financial period occurs following the finalisation of the financial statements for the period. A members' share in the profit or loss for the period is accounted for as an allocation of profits or losses. Unallocated profits or losses are included within 'other reserves'.

Capital

The capital requirements of the LLP are determined from time to time by the members. Each member is required to subscribe to a proportion of this capital. No interest is paid on this capital.
