OLIVER MICHAEL LLP

NOTES TO THE ABBREVIATED ACCOUNTS

PERIOD FROM 14 JUNE 2010 TO 30 JUNE 2011

1. ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the historical cost convention, modified to include the revaluation of financial instruments, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008), and the requirements of the Statement of Recommended Practice 'Accounting by Limited Liability Partnerships' issued in March 2006 (SORP 2006)

Turnover

The Turnover shown in the profit and loss accounts represents rents receivable during the year, exclusive of Value Added Tax

Going concern

The LLP made a loss of £9,628 for the period and has a net liability position of £170,839 at the balance sheet date These financial statements have been prepared on a going concern basis on the grounds that the members with continuing support of the bank have the ability to enable the LLP to pay its debts as they fall due for at least one year from the date of approval of these financial statements The LLP has also considered its financial projections, and working capital requirements for the future period and considers the funding will be adequate for the LLP to continue trading in its current capacity The members therefore believe the adoption of the going concern basis is justified

Investment properties

Investment properties are recorded at their open market value The surplus or deficit arising from the annual revaluation is transferred to the revaluation reserve, unless a deficit or its reversal, on an individual property is expected to be permanent, in which case it is recognised in the profit or loss in the year

Investment properties are not depreciated This is in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008) and override the requirements of The Small Companies and Groups (Accounts and members' Report) Regulations 2008 Investment properties are held for their investment potential and not for use by the company and so their current value is of prime importance The departure from the provisions of the Regulations is required in order to give a true and fair view

Members' participation rights

Members' participation rights are the rights of a member against the LLP that arise under the members' agreement (for example, in respect of amounts subscribed or otherwise contributed, remuneration and profits)

Members' participation rights in the earnings or assets of the LLP are analysed between those that are, from the LLP's perspective, either a financial liability or equity, in accordance with FRS 25 (IAS 32) Financial Instruments Disclosure and Presentation and UITF abstract 39 Members' shares in co-operative entities and similar instruments A member's participation right results in a liability unless the right to any payment is discretionary on the part of the LLP

1. ACCOUNTING POLICIES *(continued)*

Amounts subscribed or otherwise contributed by members, for example members' capital, are classed as equity if the LLP has an unconditional right to refuse payment to members If the LLP does not have such an unconditional right, such amounts are classified as liabilities

Where profits are automatically divided as they arise, so the LLP does not have an unconditional right to refuse payment, the amounts arising that are due to members are in the nature of liabilities They are therefore treated as an expense in the Profit and Loss Account in the relevant year To the extent that they remain unpaid at the period end, they are shown as liabilities in the Balance Sheet

Conversely, where profits are divided only after a decision by the LLP or its representative, so that the LLP has an unconditional right to refuse payment, such profits are classed as an appropriation of equity rather than as an expense They are therefore shown as a residual amount available for discretionary division among members in the Profit and Loss Account and are equity appropriations in the Balance Sheet

Other amounts applied to members, for example remuneration paid under an employment contract and interest on capital balances, are treated in the same way as all other divisions of profits, as described above, according to whether the LLP has, in each case, an unconditional right to refuse payment

All amounts due to members that are classified as liabilities are presented in the Balance Sheet within 'Loans and other debts due to members' and are charged to the Profit and Loss Account within 'Members' remuneration charged as an expense' Amounts due to members that are classified as equity are shown in the Balance Sheet within 'Members' other interests'
