Notes to the Accounts
for the year ended 31 January 2015

1 Accounting policies

Basis of preparation

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008) and the Statement of Recommended Practice (SORP), "Accounting by Limited Liability Partnerships".

Turnover

Turnover represents the value, net of value added tax and discounts, in respect of letting of properties and services supplied.

Depreciation

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives.

Fixtures and Fittings	15% reducing balance
-----------------------	----------------------

Stocks

Stock is valued at the lower of cost and net realisable value.

Foreign currencies

Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the balance sheet date. All differences are taken to the profit and loss account.

Fixed Assets - Freehold Investment Properties

No depreciation is provided in respect of freehold investment properties. Investment Properties are re-valued by the directors on an annual basis. Surpluses or deficits on individual properties are transferred to the revaluation reserve, except that a deficit which is expected to be permanent and which is in excess of any previously recognised surplus over cost relating to the same property, or the reversal of such deficit, is charged or credited to the profit and loss account.

This accounting policy, may be a departure from the requirements of the Companies Act 2006 concerning depreciation of fixed assets (although complies with SSAP 19 "Accounting for investment properties"). However, these properties are not held for consumption but for investment and the directors consider that systematic annual depreciation would be inappropriate. The accounting policy adopted is therefore necessary for the accounts to give a true and fair view. Depreciation is only one of the many factors reflected in the annual valuation and the amount which might otherwise have been shown cannot be separately identified or quantified.
