Notes to the Financial Statements for the Year Ended 31 August 2022

1 Accounting policies

Summary of significant accounting policies and key accounting estimates

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Statement of compliance

These financial statements have been prepared in accordance with Financial Reporting Standard 102 Section 1A - 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Companies Act 2006.

General information and basis of accounting

The limited liability partnership is incorporated in England and Wales under the Limited Liability Partnership Act 2000. The address of the registered office is given on the limited liability partnership information page. The nature of the limited liability partnership's operations and its principal activities are given in the members' report.

These financial statements have been prepared using the historical cost convention except that as disclosed in the accounting policies certain items are shown at fair value.

The functional currency of Sunbury Homes (Cranham) LLP is considered to be pounds sterling because that is the currency of the primary economic environment in which the limited liability partnership operates.

These financial statements are presented in Sterling (£), which is the company's functional currency.

Revenue recognition

Revenue is recognised to the extent that the limited liability partnership obtains the right to consideration in exchange for its performance. Revenue is measured at the fair value of the consideration received, excluding discounts, rebates and VAT.

Government grants

Government grants are recognised using the performance model and recognised in other operating income unless they relate to a revenue activity.

Members' remuneration and division of profits

Members' fixed shares of profits and interest earned on members' balances are automatically allocated and are treated as members' remuneration charged as an expense to the profit and loss account.

Tangible fixed assets

Tangible assets are stated in the statement of financial position at cost, less any subsequent accumulated depreciation.

Depreciation

Depreciation is provided on tangible fixed assets so as to write off the cost, less any estimated value, over their expected useful economic life as follows:

Asset class	Depreciation method and rate
Plant and machinery	25% Reducing balance method
Office equipment	25% Reducing balance method
Motor vehicles	25% Reducing balance method

1 Accounting policies (continued)

Work in progress

Work in progress is valued at the lower of cost and net realisable value, after due regard for obsolete and slow moving items. Net realisable value is based on selling price less anticipated costs to completion and selling costs. Cost includes all direct costs and an appropriate proportion of fixed and variable overheads. Interest and other borrowing costs are included as they directly relate to the work in progress.

Trade debtors

Trade debtors are amounts due from customers for merchandise sold or services performed in the ordinary course of business. Trade debtors are recognised initially at the transaction price. They are subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for the impairment of trade debtors is established when there is objective evidence that the limited liability partnership will not be able to collect all amounts due according to the original terms of the receivables.

Cash and cash equivalents

Cash and cash equivalents comprise cash in hand.

Trade creditors

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if the limited liability partnership does not have an unconditional right, at the end of the reporting period, to defer settlement of the creditor for at least twelve months after the reporting date. If there is an unconditional right to defer settlement for at least twelve months after the reporting date, they are presented as non-current liabilities.

Trade creditors are recognised at the transaction price.

Borrowings

Interest-bearing borrowings are initially recorded at fair value, net of transaction costs. Interest-bearing borrowings are subsequently carried at amortised cost, with the difference between the proceeds, net of transaction costs, and the amount due on redemption being recognised as a charge to the profit and loss account over the period of the relevant borrowing.

Interest expense is recognised on the basis of the effective interest method and is included in interest payable and similar charges. Borrowings are classified as current liabilities unless the partnership has an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

Provisions

Provisions are recognised when the limited liability partnership has an obligation at the reporting date as a result of a past event, it is probable that the limited liability partnership will be required to settle that obligation and a reliable estimate can be made of the amount of the obligation.

2 Particulars of employees

The average number of persons employed by the limited liability partnership during the year was 0 (2021 - 0).
