1 Accounting policies

Basis of preparation

The accounts have been prepared under the historical cost convention and in accordance with FRS 102, the Financial Reporting Standard applicable in the UK and Republic of Ireland (as applied to small entities by section 1A of the standard) and the Statement of Recommended Practice (SORP), Accounting by Limited Liability Partnerships.

Turnover

Turnover is measured at the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes. Turnover from the sale of goods is recognised when goods have been delivered to customers such that risks and rewards of ownership have transferred to them. Turnover from the rendering of services is recognised by reference to the stage of completion of the contract. The stage of completion of a contract is measured by comparing the costs incurred for work performed to date to the total estimated contract costs.

Going concern

After reviewing the LLP's forecasts and projections, the members have a reasonable expectation that the LLP has adequate resources to continue in operational existence for the foreseeable future. The LLP therefore continues to adopt the going concern basis in preparing its financial statements.

Inventories

Inventories have been valued at the lower of cost and estimated selling price less costs to complete and sell. In respect of work in progress and finished goods, cost includes a relevant proportion of overheads according to the stage of manufacturing/completion.
