1. ACCOUNTING POLICIES

Basis of accounting
The financial statements have been prepared under the historical cost convention.

Cash flow statement
The directors have taken advantage of the exemption in Financial Reporting Standard No 1 from including a cash flow statement in the financial statements on the grounds that the company is small.

Turnover
The turnover shown in the profit and loss account represents amounts invoiced during the year, exclusive of Value Added Tax.

Depreciation
Depreciation is calculated as follows

Freehold property	- 2% straight line
Equipment and fittings	- 10% reducing balance
Motor vehicles	- 25% reducing balance

Stock
Stock is valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Pension costs
The company operates a defined contribution pension scheme for employees. The assets of the scheme are held separately from those of the company. The annual contributions payable are charged to the profit and loss account.

Deferred taxation
Provision is made, under the liability method, to take account of timing differences between the treatment of certain items for accounts purposes and their treatment for tax purposes. Tax deferred or accelerated is accounted for in respect of all material timing differences to the extent that it is considered that a net liability may arise.
