NOTES TO THE ABBREVIATED ACCOUNTS

FOR THE YEAR ENDED 30 JUNE 2015

1 Accounting policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

1.2 Compliance with accounting standards

The financial statements are prepared in accordance with applicable United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), which have been applied consistently (except as otherwise stated).

1.3 Turnover

Turnover represents the invoiced value of goods sold and services provided net of VAT.

1.4 Tangible fixed assets and depreciation

Tangible fixed assets other than freehold land are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Land and buildings Freehold	2% Straight line & 15% reducing balance on property improvements
Plant and machinery	20% Reducing balance
Motor vehicles	25% Reducing balance

1.5 Leasing and hire purchase commitments

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible assets and depreciated over the shorter of the lease term and their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.

1.6 Investments

Fixed asset investments are stated at cost less provision for diminution in value.

1.7 Stock

Stock is valued at the lower of cost and net realisable value.

1.8 Pensions

The company operates a defined contribution scheme for the benefit of its employees. Contributions payable are charged to the profit and loss account in the year they are payable.

(Continued)

1.9 Deferred taxation

Deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date, where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date.

A net deferred tax asset is regarded as recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits against which to recover carried forward tax losses and from which the future reversal of underlying timing differences can be deducted.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates enacted by the balance sheet date. Deferred tax is measured on a non-discounted basis.

1.10 Government grants

Grants in respect of capital expenditure are credited to a deferred income account and are released to profit over the expected useful lives of the relevant assets. Prior to 30 June 1994 capital grants were deducted from the cost of the relevant assets. Grants of a revenue nature are credited to income in the period to which they relate.
