NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 14 JANUARY 2006

1 Accounting policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention modified to include the revaluation of freehold land and buildings and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2005)

The true and fair override provisions of the Companies Act 1985 have been invoked, see 'investment properties' below

1.2 Turnover

Turnover shown in the profit and loss account represents amounts invoiced during the year

1.3 Tangible fixed assets and depreciation

Tangible fixed assets other than land and buildings are stated at cost or valuation less depreciation. Depreciation is provided at rates calculated to write off the cost or valuation less estimated residual value of each asset over its expected useful life, as follows

Land and buildings Freehold	no depreciation is provided on freehold land or buildings, see 'investment properties below'
Plant	20% reducing balance basis

1.4 Pensions

The company operates a defined contribution scheme for the benefit of its employees. Contributions payable are charged to the profit and loss account in the year they are payable.

1.5 Investment properties

Investment properties are included in the balance sheet at their open market value. No depreciation is provided on such properties.

Although this accounting policy is in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2005), it is a departure from the general requirement of the Companies Act 1985 for all tangible assets to be depreciated. In the opinion of the directors compliance with the standard is necessary for the financial statements to give a true and fair view. Depreciation or amortisation is only one of many factors reflected in the annual valuation and the amount of this which might otherwise have been charged cannot be separately identified or quantified.

1.6 Operating lease agreements

Assets held for use in operating leases are included as a separate category in fixed assets. Rental income from operating leases is recognised on a straight line basis over the term of the lease.
