Sportoys (Glasgow) Limited

Notes to the abbreviated financial statements for the year ended 31 January 2012

1. Accounting policies

1.1. Accounting convention

The accounts are prepared under the historical cost convention modified to include the revaluation of certain fixed assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

1.2. Turnover

The total turnover of the company for the year has been derived from its principal activity wholly undertaken in the UK.

1.3. Tangible fixed assets and depreciation

Depreciation is provided at rates calculated to write off the cost or valuation less residual value of each asset over its expected useful life, as follows:

Plant and machinery - 10% straight line

In accordance with Statement of Standard Accounting Practice No. 19, the company's investment property is held for long term investment and must be included in the Balance Sheet at its open market value. The deficit/surplus on revaluation of this property is transferred to the investment revaluation reserve. Depreciation is not provided in respect of freehold investment properties. This policy does not fall within the requirements of the Companies Act 2006 statutory accounting principles, which require depreciation to be provided on all fixed assets. The directors consider that this policy is necessary in order that the Financial Statements may give a true and fair view, because current values and changes in current values are of prime importance rather than the calculation of systematic annual depreciation. Depreciation is only one of many factors reflected in the valuation and the amount which might otherwise have been shown cannot be separately identified or quantified. The Directors consider that this policy results in the Accounts giving a true and fair view.

1.4. Investments

Fixed asset investments are stated at cost less provision for permanent diminution in value.

1.5. Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more, tax, with the following exceptions:

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.
