Notes to the abbreviated financial statements for the year ended 31 December 2009

1 Accounting policies

Basis of accounting

The financial statements are prepared on the historical cost basis of accounting and have been prepared in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

The financial statements do not include a cash flow statement because the company, as a small reporting entity, is exempt from the requirements to prepare such a statement under the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents the value of goods and services supplied by the company, excluding value added tax.

Depreciation of tangible fixed assets

Depreciation is provided on all tangible fixed assets at rates calculated to write off the full cost or valuation less estimated residual value of each asset over its estimated useful life. The principal rates in use are:

Freehold buildings	2%	on cost
Motor vehicles	25%	reducing balance
Plant and machinery	15%	reducing balance
Freehold land is not depreciated		

Deferred taxation

Deferred tax is provided in respect of the tax effect of all timing differences that have originated but not reversed at the balance sheet date.

A deferred tax asset is regarded as recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on a nondiscounted basis, at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Investments

Investments are carried at cost less any provision for impairment.

Lease transactions

Rentals under operating leases are charged to the profit and loss account as they fall due.

Investment properties

Investment properties are revalued annually and are included in the balance sheet at their open market value. Any surplus on revaluation is transferred to the revaluation reserve. Any deficit is deducted from the revaluation reserve, except for any permanent diminution in value, which is charged to the profit and loss account.

In accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008), no depreciation is provided in respect of investment properties.
