NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED 31 JANUARY 2016

1. ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents income from property and land rental and from the results of sheep farming and forestry activities, excluding value added tax.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Land and buildings - not depreciated

Tennants improvements - over 18 years

Plant and machinery etc - 10% and 20% on reducing balance

Within land and buildings there is an amount relating to tenants improvements to leasehold property, which has now been fully depreciated.

Depreciation is not provided on freehold land. Freehold properties are not depreciated where the directors are of the opinion that the buildings concerned are maintained to ensure that the residual values, assessed on the basis of the price at the time of acquisition or subsequent valuation, are not less than the carrying values and as a result the annual depreciation charge is not material to the financial statements.

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Deferred tax

Deferred taxation is provided on the liability method to take account of timing differences between the treatment of certain items for accounts purposes and their treatment for tax purposes. Tax deferred or accelerated is accounted for in respect of all material timing differences.

Operating leases

Properties which are held for use with operating leases are included in tangible fixed assets. These properties are not depreciated and are accounted for as noted in the tangible fixed asset accounting policy.

Gross income from operating leases is recognised in the profit and loss account on a straight line basis over the period of each lease. Any initial costs incurred in arranging operating leases are charged to the profit and loss account in the period in which they are incurred.
