**Turnover**

**Tangible fixed assets**
Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter.

**Stocks**
Stock is valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

**Deferred taxation**

The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.
