Review of Business and Future Developments

Following the successful integration of Stewart Ivory into the First State group and the massive investment in cutting edge administration platforms, we are positioned to substantially grow our presence in the UK and European markets. With the backing of our ultimate parent company, Commonwealth Bank of Australia, and with the extremely successful role model of Colonial First State Investments in Australia, we intend to be a leading player in these markets.

FIRST STATE INVESTMENT MANAGEMENT (UK) LIMITED
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30TH JUNE 2002

1. Principal Accounting Policies

The financial statements have been prepared in accordance with applicable Accounting Standards in the United Kingdom. A summary of the accounting policies, which have been applied consistently, is set out below.

(a) Basis of accounting

The financial statements are prepared in accordance with the historical cost convention.

(b) Taxation

The charge for taxation is based on the profit for the year as adjusted for disallowable items. Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more, or right to pay less, tax in future have occurred at the balance sheet date. This is subject to deferred tax assets only being recognised if it is considered more likely than not that there will be suitable profits from which the future reversal of the underlying timing differences can be deducted. Timing differences are differences arising between the company's taxable profits and its results as stated in the financial statements which are capable of reversal in one or more subsequent periods.

(c) Foreign currencies

Income received in foreign currencies is translated into sterling at the rate on the date of receipt. Foreign currency balances have been translated at market rates of exchange ruling at the Balance Sheet date. Gains and losses on exchange are taken to the Profit and Loss Account.

(d) Investments

Investments are shown in the Balance Sheet at the lower of cost or Directors' valuation.

(e) Cashflow statement

No cashflow statement has been prepared as a consolidated cashflow statement is included in the financial statements of the ultimate holding company, Commonwealth Bank of Australia.

2. Turnover

Turnover is the total of investment management, advisory and administration fees.
