The directors acknowledge their responsibilities for:

Notes to the Abbreviated Accounts

1 Accounting policies

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective June 2002).

Turnover

Turnover represents the invoiced value of goods and services supplied by the company, net of value added tax and trade discounts.

Depreciation

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives.

Plant and machinery	15%/10% reducing balance
Motor vehicles	25% reducing balance

Deferred taxation

Full provision is made for deferred taxation resulting from timing differences between the recognition of gains and losses in the accounts and their recognition for tax purposes. Deferred taxation is calculated on an un-discounted basis at the tax rates which are expected to apply in the periods when the timing differences will reverse.

Investment properties

Certain of the company's properties are held for long term investment and are included in the Balance Sheet at cost. Depreciation is not provided in respect of freehold investment properties.

This policy represents a departure from statutory accounting principles, which require depreciation to be provided on all fixed assets. The directors consider that this policy is necessary in order that the Accounts may give a true and fair view

The properties are shown at cost. This has not been updated as the transitional arrangements of the Financial Reporting Standard for Smaller Entities (effective June 2002) have been followed.
