**Notes to the Abbreviated Accounts
for the Year Ended 30 November 2012**

1. ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents net invoiced sales of services, excluding value added tax.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant and machinery etc - 15% on reducing balance

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Investment properties

Investment properties are held for long term investment, and are accounted for in accordance with SSAP 19 as follows :

" The property is revalued annually and the unrealised gains or losses are transferred to revaluation reserve, except that a deficit which is expected to be permanent and which is in excess of any previously recognised surplus is charged to the profit and loss account."

No depreciation is provided in respect of the property.

Although the Companies Act would normally require systematic depreciation of the property the directors believe that the policy of not providing depreciation is necessary in order for the financial statements to give a true and fair view since the properties are not held for consumption but for investment. The amount of depreciation which might otherwise have been charged cannot be separately identified or quantified.
