The company is entitled to exemption from audit under Section 477 of the Companies Act 2006 for the year ended 31 December 2015.

The members have not required the company to obtain an audit of its financial statements for the year ended 31 December 2015 in accordance with Section 476 of the Companies Act 2006.

The director acknowledges her responsibilities for:

(a) ensuring that the company keeps accounting records which comply with Sections 386 and 387 of the Companies Act 2006 and

(b) preparing financial statements which give a true and fair view of the state of affairs of the company as at the end of each financial year and of its profit or loss for each financial year in accordance with the requirements of Sections 394 and 395 and which otherwise comply with the requirements of the Companies Act 2006 relating to financial statements, so far as applicable to the company.

The abbreviated accounts have been prepared in accordance with the special provisions of Part 15 of the Companies Act 2006 relating to small companies.

The financial statements were approved by the director on 29 September 2016 and were signed by:

Mrs A R Napier - Director

The notes form part of these abbreviated accounts

Notes to the Abbreviated Accounts for the Year Ended 31 December 2015

1. ACCOUNTING POLICIES

Basis of preparing the financial statements
These financial statements have been prepared in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015) and the Companies Act 2006. The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets.

The company's forecast and projections, taking account of reasonable changes in trading performance, indicate that the company plans to operate within cash generated. The Director confirms that, after making appropriate enquiries, she has reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. For this reason, she continues to adopt the going concern basis in preparing these Financial Statements.

Turnover
Turnover comprises rental income from properties in the United Kingdom and the United States of America. Rental income is recognised in the period in which it is receivable.

Tangible fixed assets
Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.
Plant and machinery etc - straight line over 2 - 5 years

Investment property
Investment property is shown at most recent valuation. Any aggregate surplus or deficit arising from changes in market value is transferred to a revaluation reserve.

Deferred tax
Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more, tax, with the following exemptions:

- provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that at the balance sheet date, there is a binding agreement to dispose of the asset concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold;

- provision is made for deferred tax that would arise on remittance of the retained earnings of overseas subsidiaries, associates and joint ventures only to the extent that, at the balance sheet date, dividends have been accrued as receivable;

- deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Foreign currency transactions
Transactions denominated in a foreign currency are translated at the average exchange rate for the year. At the balance sheet date any monetary assets and liabilities denominated in a foreign currency are translated using the closing exchange rate.
