Notes to the Abbreviated Accounts
for the Year Ended 31 October 2015

1. **ACCOUNTING POLICIES**

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents amounts receivable, primarily from the sale of livestock and crops, net of Value Added Tax and trade discounts.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter.

Freehold property	- 2% on cost and not provided (land)
Plant and machinery	- 15% on cost
Fixtures and fittings	- 20% on cost
Motor vehicles	- 20% on cost

Tangible assets are stated at cost, being purchase price less depreciation.

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete or slow moving items. Trading stocks and crops are valued at the lower of the aggregate cost per unit or market value.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date, where transactions or events that result in an obligation to pay more or a right to pay less tax in the future have occurred by the balance sheet date with certain limited exceptions.

Deferred tax is calculated on an undiscounted basis at the tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Hire purchase and leasing commitments

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is the shorter.

The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.

Pension costs and other post-retirement benefits

The company makes payments into the personal pension plans of the directors. Contributions payable are charged to the profit and loss account in the year they are payable.

Investments

Fixed asset investments are stated at cost less any provision for permanent diminution in value.
