1. Accounting Policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the Company's financial statements.

a) Basis of Preparation

The financial statements have been prepared under the historical cost convention, and in accordance with S228 of, and Schedule 4 to, the Companies Act 1985 and the relevant Accounting Standards, as modified by the revaluation of certain tangible assets.

b) Fixed Assets and Depreciation

Depreciation is provided by the Company to write off the cost of tangible fixed assets by equal instalments over their estimated useful lives as follows:-

Freehold Buildings	-	50 years

c) Pension Costs

The Company operates a defined contribution pension scheme. The assets of the scheme are held separately from those of the Company in an independently administered fund. The amount charged against profits represents the contributions payable to the scheme in respect of the accounting period.

d) Stocks

Stocks are stated at the lower of cost and net realisable value.

e) Taxation

The charge for taxation is based on the profit for the year and takes into account deferred taxation because of timing differences between the treatment of certain items for taxation and accounting purposes. Provision is made for deferred tax only to the extent that it is probable that an actual liability will crystallize.

f) Leases

All Leases are operating leases and the rental charges are taken to the Profit and Loss Account on a straight line basis over the life of the lease.
