Carron Bathrooms Limited

Strategic report

For the year ended 31 December 2018

The directors present the strategic report for the year ended 31 December 2018.

Fair review of the business

The principal activity of the company during the year was the design, manufacture and marketing of acrylic baths and associated products.

Development and financial performance during the year

Trading conditions in the bathroom industry in all the company's markets remained strong throughout 2018. Investments made in product development and production systems in recent years ensured the company continued to be able to benefit from good market conditions. Sales increased to £13.452 million, an increase of 0.3% compared to 2017.

Material costs increased significantly in the year. Although labour costs remained well controlled, the company's gross margin decreased from 29.3% in 2017 to 27.1%. As a result, the company's profit after tax fell to £1.193 million, compared with £1.332 million in the previous year. Nevertheless, the directors consider the results to be satisfactory.

Financial position at the reporting date

During the year the company paid dividends totalling £1,200,812 to its parent company, Carron Holdings Limited. Consequently, the company had a cash outflow of £258,000 in the year. At the year-end the company had cash on hand of £0.825 million and no borrowings. The net assets of the company decreased from £4.313 million to £4.305 million.

Current trading

Market conditions during the early part of 2019 have remained much the same as they were during 2018. Margins are also broadly similar to 2018.

Principal risks and uncertainties facing the business

The directors see the risk management as an integral part of good governance and assess perceived risks on a regular basis. As well as strategic, financial and operational matters, these also include issues concerning health and safety and compliance with applicable legal and regulatory requirements.

The continuing uncertainty regarding the Brexit process presents a unique set of challenges for the company. The company has prepared, as far as it is able, by increasing stocks of materials sourced from suppliers within the European Union and maintaining constant dialogue with customers within the European Union. Should the UK leave the EU without a deal, the company considers it very likely that trading conditions in the UK will become very much more difficult. If such conditions do transpire, the company could reduce its cost base significantly and will be able to trade profitably.

On behalf of the board

David McMorris

Director

22/03/19

Carron Bathrooms Limited

Directors' report

For the year ended 31 December 2018

The directors present their annual report and financial statements for the year ended 31 December 2018.

Directors

The directors who held office during the year and up to the date of signature of the financial statements were as follows:

David McMorris

John Hewitt

James McMorris

(Appointed 1 April 2018)

Keith Haig

(Appointed 1 April 2018)

James Mathieson

(Appointed 1 April 2018 and resigned 13 February 2019)

Results and dividends

The results for the year are set out on page 7.

Ordinary dividends were paid amounting to £1,200,812. The directors do not recommend payment of a final dividend.

Auditor

Saffery Champness LLP have expressed their willingness to continue in office. A resolution proposing that they be re-appointed will be put at a General Meeting.

Statement of directors' responsibilities

The directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Carron Bathrooms Limited

Directors' report (continued)

For the year ended 31 December 2018

Statement of disclosure to auditor

So far as each person who was a director at the date of approving this report is aware, there is no relevant audit information of which the company's auditor is unaware. Additionally, the directors individually have taken all the necessary steps that they ought to have taken as directors in order to make themselves aware of all relevant audit information and to establish that the company's auditor is aware of that information.

Future developments

The prospects of the company are closely tied to the strength of the economics in the company's key markets, specifically the United Kingdom. Should the economic growth seen in recent years continue, the company would expect to sustain current levels of profitability and cash generation. Should economic conditions deteriorate, the company has contingency plans to reduce costs appropriately.

Financial instruments

The company's principal financial instruments comprise trade debtors and creditors arising directly from its operations. All customers who wish to trade on credit terms are subject to credit verification procedures. Trade debtors balances are monitored on an ongoing basis and provision is made for doubtful debts where necessary.

On behalf of the board

David McMorrine

Director

Carron Bathrooms Limited

Independent auditor's report

To the members of Carron Bathrooms Limited

Opinion

We have audited the financial statements of Carron Bathrooms Limited (the 'company') for the year ended 31 December 2018 which comprise the statement of comprehensive income, the balance sheet, the statement of changes in equity, statement of cash flows and notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2018 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

Independent auditor's report (continued)
To the members of Carron Bathrooms Limited

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of our audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report and the directors' report.

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the directors' responsibilities statement set out on page 2, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Carron Bathrooms Limited

Independent auditor's report (continued)
To the members of Carron Bathrooms Limited

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: <http://www.frc.org.uk/auditorsresponsibilities>. This description forms part of our auditor's report.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Carron Bathrooms Limited

Notes to the financial statements For the year ended 31 December 2018

1 Accounting policies

Company information

Carron Bathrooms Limited is a private company limited by shares incorporated in Scotland. The registered office is North Carron Works, Stenhouse Road, Carron, Falkirk, Stirlingshire, FK2 8UW.

1.1 Accounting convention

These financial statements have been prepared in accordance with FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102") and the requirements of the Companies Act 2006.

The financial statements are prepared in sterling, which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest £.

The financial statements have been prepared under the historical cost convention. The principal accounting policies adopted are set out below.

Carron Bathrooms Limited is a wholly-owned subsidiary of Carron Holdings Limited and the results of Carron Bathrooms Limited are included in the consolidated financial statements of Carron Holdings Limited which are available from North Carron Works, Stenhouse Road, Carron, Falkirk, Stirlingshire, FK2 8UW.

1.2 Going concern

At the time of approving the financial statements, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Thus the directors continue to adopt the going concern basis of accounting in preparing the financial statements.

1.3 Turnover

Turnover represents amounts derived from the provisions of goods and services which fall within the company's ordinary activities after deduction of trade discounts and Value Added Tax.

Sales are recognised on delivery of bathroom products to the customer.

1.4 Property, plant and equipment

Tangible fixed assets are initially measured at cost and subsequently measured at cost or deemed cost, less any accumulated depreciation and any impairment losses.

Depreciation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Freehold land and buildings	2.5% straight line
Plant and machinery	10% straight line
Fixtures, fittings, tools and equipment	15% to 33.33% straight line
Motor vehicles	33.33% straight line

1 Accounting policies (continued)

The gain or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the carrying value of the asset, and is credited or charged to profit or loss.

1.5 Stocks

Stocks are stated at the lower of cost and estimated selling price less costs to complete and sell. Cost comprises direct materials and, where applicable, direct labour costs and those overheads appropriate to the relevant stage of production. Net realisable value is based on estimated selling price less all further costs to completion and relevant marketing, selling and distribution costs.

Work in progress

Work in progress is valued on the basis of direct costs plus attributable overheads based on normal levels of activity. Provision is made for any foreseeable losses where appropriate. No element of profit is included in the valuation of work in progress.

1.6 Cash and cash equivalents

Cash and cash equivalents are basic financial assets and include cash in hand, deposits held at call with banks, other short-term liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

1.7 Financial instruments

The company has elected to apply the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Financial instruments are recognised in the company's balance sheet when the company becomes party to the contractual provisions of the instrument.

Basic financial instruments are initially recognised at the transaction price, unless the arrangement constitutes a financing transaction, where it is recognised at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Debt instruments are subsequently measured at amortised cost.

Financial assets that are measured at cost or amortised cost are reviewed for objective evidence of impairment at the end of each reporting date. If there is objective evidence of impairment, an impairment loss is recognised in profit or loss immediately.

For all equity instruments, regardless of significance, and other financial assets that are individually significant, these are assessed individually for impairment. Other financial assets are either assessed individually or grouped on the basis of similar credit risk characteristics.

Any reversals of impairment are recognised in profit or loss immediately, to the extent that the reversal does not result in a carrying amount of the financial asset that exceeds what the carrying amount would have been had the impairment not previously been recognised.

1 Accounting policies (continued)

1.8 Equity instruments

Equity instruments issued by the company are recorded at the proceeds received, net of direct issue costs. Dividends payable on equity instruments are recognised as liabilities once they are no longer at the discretion of the company.

1.9 Taxation

The tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the profit and loss account because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the reporting end date.

Deferred tax

Deferred tax liabilities are generally recognised for all timing differences and deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Such assets and liabilities are not recognised if the timing difference arises from goodwill or from the initial recognition of other assets and liabilities in a transaction that affects neither the tax profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each reporting end date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Where items recognised in other comprehensive income or equity are chargeable to or deductible for tax purposes, the resulting current or deferred tax expense or income is presented in the same component of comprehensive income or equity as the transaction or other event that resulted in the tax expense or income. Deferred tax assets and liabilities are offset when the company has a legally enforceable right to offset current tax assets and liabilities and the deferred tax assets and liabilities relate to taxes levied by the same tax authority.

1.10 Provisions

Provisions are recognised when the company has a legal or constructive present obligation as a result of a past event, it is probable that the company will be required to settle that obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting end date, taking into account the risks and uncertainties surrounding the obligation. Where the effect of the time value of money is material, the amount expected to be required to settle the obligation is recognised at present value. When a provision is measured at present value, the unwinding of the discount is recognised as a finance cost in profit or loss in the period in which it arises.

1 Accounting policies (continued)

1.11 Employee benefits

The costs of short-term employee benefits are recognised as a liability and an expense, unless those costs are required to be recognised as part of the cost of stock or non-current assets.

The cost of any unused holiday entitlement is recognised in the period in which the employee's services are received.

Termination benefits are recognised immediately as an expense when the company is demonstrably committed to terminate the employment of an employee or to provide termination benefits.

1.12 Defined contributions plans

Contributions to defined contribution plans are recognised as an expense in the period in which the related service is provided. Prepaid contributions are recognised as an asset to the extent that the prepayment will lead to a reduction in future payments or a cash refund.

When contributions are not expected to be settled wholly within 12 months of the end of the reporting date in which the employees render the related services, the liability is measured on a discounted present value basis. The unwinding of the discount is recognised as a finance cost in profit or loss in the period in which it arises.

1.13 Leases

Rentals payable under operating leases, including any lease incentives received, are charged to income on a straight line basis over the term of the relevant lease except where another more systematic basis is more representative of the time pattern in which economic benefits from the lease asset are consumed.

1.14 Foreign exchange

Transactions in currencies other than pounds sterling are recorded at the rates of exchange prevailing at the dates of the transactions. At each reporting end date, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing on the reporting end date. Gains and losses arising on translation are included in the profit and loss account for the period.

2 Critical accounting judgements and key sources of estimation uncertainty

In the application of the company's accounting policies, the directors are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised where the revision affects only that period, or in the period of the revision and future periods where the revision affects both current and future periods.

2 Critical accounting judgements and key sources of estimation uncertainty (continued)

Key sources of estimation uncertainty

The estimates and assumptions which have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities are as follows.

Useful economic lives of tangibles assets

The annual depreciation charge for tangible assets is sensitive to changes in the estimated useful economic lives and residual values of the assets. The useful economic lives and residual values are re-assessed annually. They are amended annually when necessary to reflect current estimates, based on technological advancements, future investments, economic utilisation and the physical condition of the assets. See note 10 for carrying value of the freehold land and buildings and note 1 for the useful economic lives for each class of asset.

Stock provisioning

The company designs, manufactures and sells baths and is subject to changing consumer demand. As a result it is necessary to consider the recoverability of the cost of stock and associated provisioning required. When calculating the stock provision, management considers the nature and condition of the stock, as well as applying assumptions around anticipated saleability of finished goods and future usage of raw materials. See note 11 for the net carrying amount of stock.

Impairment of debtors

The company makes an estimate of the recoverability value of trade and other debtors. When assessing the impairment of trade and other debtors, management considers factors including the current credit rating of the debtor, the ageing profiles of debtors and historical experience. See note 12 for the net carrying amount of debtors.

3 Turnover and other revenue

An analysis of the company's turnover is as follows:

	2018	2017
	£	£
Turnover		
Manufacture and sale of bathroom products	13,451,766	13,409,597

No split of turnover between geographical segments has been disclosed due to the commercial sensitivity of this information.

Carron Bathrooms Limited

	<u>1,497,637</u>	<u>1,605,723</u>
Carrying amount of financial liabilities		
Measured at amortised cost	1,923,137	2,047,526
	<u>1,923,137</u>	<u>2,047,526</u>

19 Reserves

Share premium

Represents the premium over nominal value of shares that have been issued.

Revaluation reserve

Represents the increase in value over cost of assets that have been revalued.

Capital redemption reserve

Represents funds set aside to maintain the level of capital after a redemption of share capital.

Profit and loss reserves

Includes all current and prior period retained profits and losses.

20 Financial commitments, guarantees and contingent liabilities

A financial guarantee for £10,000 in favour of HM Revenue & Customs is in place.

Notes to the financial statements (continued)
For the year ended 31 December 2018

21¹ Operating lease commitments

Lessee

At the reporting end date the company had outstanding commitments for future minimum lease payments under non-cancellable operating leases, which fall due as follows:

	2018	2017
	£	£
Within one year	199,056	98,827
Between two and five years	297,295	96,350
In over five years	169,584	-
	<u>665,935</u>	<u>195,177</u>

22 Related party transactions

The company has elected to take advantage of the exemption granted under Section 33 Related Party Disclosures of FRS 102 available to wholly owned subsidiaries and has not disclosed transactions with other group companies.

The key management personnel are considered to be the directors of the company and therefore the aggregate of key management compensation is detailed in note 7.

23 Controlling party

The entire issued share capital of the company is owned by Carron Holdings Limited, a company registered in Scotland for which group financial statements are prepared. Copies of the financial statements are available from Companies House in Edinburgh. Carron Holdings Limited is the parent undertaking of the smallest and largest group which consolidates the financial information of the company. Copies of the group's financial statements may be obtained from Companies House.

For the whole of the current and previous years the company's ultimate controlling parties were the directors of Carron Holdings Limited, David McMorris and John Hewitt.
