## **Notes to the financial statements for the year ended 31st March 2018**

### **1. General information**

The company is a private company limited by shares, registered in Scotland. The address of the registered office is Unit A, Minto Avenue, Altens Industrial Estate, Aberdeen, AB12 3JZ.

### **2. Statement of compliance**

These financial statements have been prepared in compliance with the provisions of FRS 102, Section 1A, "The Financial Reporting Standard applicable in the UK and Republic of Ireland".

### **3. Accounting policies**

#### **Basis of preparation**

The financial statements have been prepared on the historical cost basis.

The financial statements are prepared in sterling, which is the functional currency of the entity.

#### **Turnover**

Turnover represents revenue recognised in the accounts. Revenue is recognised when the company fulfils its contractual obligations to customers by supplying goods and services and excludes value added tax.

#### **Taxation**

The taxation expense represents the aggregate amount of current and deferred tax recognised in the reporting period. Tax is recognised in the statement of comprehensive income, except to the extent that it relates to items recognised in other comprehensive income or directly in capital and reserves. In this case, tax is recognised in other comprehensive income or directly in capital and reserves, respectively.

Current tax is recognised on taxable profit for the current and past periods. Current tax is measured at the amounts of tax expected to pay or recover using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

Deferred tax is recognised in respect of all timing differences at the reporting date. Unrelieved tax losses and other deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date that are expected to apply to the reversal of the timing difference.

#### **Operating leases**

Lease payments are recognised as an expense over the lease term on a straight-line basis. The aggregate benefit of lease incentives is recognised as a reduction to expense over the lease term, on a straight-line basis.

#### **Tangible assets**

Tangible assets are initially recorded at cost and are subsequently stated at cost less any accumulated depreciation.

**Notes to the financial statements (continued)**  
**for the year ended 31st March 2018**

**Depreciation**

Depreciation is calculated so as to write off the cost or valuation of an asset, less its residual value, over the useful economic life of that asset as follows:

|                                       |   |                                   |
|---------------------------------------|---|-----------------------------------|
| Short leasehold tenant's improvements | - | straight line over 10 years       |
| Plant and machinery                   | - | straight line over 4 and 10 years |
| Fittings, fixtures and equipment      | - | straight line over 4 years        |
| Motor vehicles                        | - | straight line over 2 and 4 years  |

If there is an indication that there has been a significant change in depreciation rate, useful life or residual value of tangible assets, the depreciation is revised prospectively to reflect the new estimates.

**Stocks**

Stocks are measured at the lower of cost and estimated selling price less costs to complete and sell. Cost includes all costs of purchase, costs of conversion and other costs incurred in bringing the stocks to their present location and condition.

**Defined contributions plans**

The company operates a defined contribution pension scheme and the pension charge represents the amounts payable by the company to the fund in respect of the year.
