NOTES ON ABBREVIATED FINANCIAL STATEMENTS

1 Accounting policies

Basis of accounting

The financial statements have been prepared under the historical cost accounting rules.

The company has taken advantage of the exemption from preparing a cash flow statement as conferred by Financial Reporting Standard No. 1 (Revised 1996) on the grounds that it qualifies as a small company under the Companies Act 1985.

Turnover

Turnover represents the amount derived from the provision of goods and services falling within the company's activities after deduction of trade discounts and value added tax.

Tangible fixed assets

Depreciation of fixed assets is calculated to write off their cost or valuation less any residual value over their estimated useful lives as follows:

Motor vehicles

25% reducing balance

Leases and hire purchase contracts

Tangible fixed assets acquired under finance leases and hire purchase contracts are capitalised at the estimated fair value at the date of inception of each lease or contract. The total finance charges are allocated over the period of the lease in such a way as to give a reasonably constant charge on the outstanding liability.

Rentals paid under operating leases are charged to income as incurred.

Deferred taxation

No provision for deferred taxation has been included in the results for this year or in the results of previous years as the effect of any future timing differences is not expected to be significant.
