The notes form part of these abbreviated accounts

Notes to the Abbreviated Accounts
for the Year Ended 31 December 2013

1. **ACCOUNTING POLICIES**

Basis of preparing the financial statements

The financial statements have been prepared on a going concern basis. The directors have been working to continue the business sales growth and implement a number of cost savings to make the business profitable. The directors have confirmed it is their intention to continue to provide sufficient funds to enable the company to meet all its liabilities as they fall due.

Should this basis not be appropriate, then adjustments to the financial statements may be necessary to accrue for further liabilities that may be incurred and to reclassify fixed assets and long term liabilities as current assets and liabilities.

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Land and buildings	- 2% on cost
Plant and machinery etc	- 20% on reducing balance and 15% on reducing balance

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax, with the following exceptions:

Provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold.

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Foreign and non-sterling currencies

The company is involved with a local currency, the EKO and has valued each EKO at £1, which is the conversion rate which has been used for all transactions in the accounts. Transactions in foreign currencies are translated into sterling at the rates of exchange ruling at the date of the transaction.
