1 Accounting policies

Trading status

The company was dormant and has not traded during the year.

Depreciation

Depreciation has been computed to write off the cost of tangible fixed assets over their expected useful lives using the following rates:

Asset class	Depreciation method and rate
Plant and machinery	25% straight line basis

Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities. Where shares are issued, any component that creates a financial liability of the company is presented as a liability in the balance sheet. The corresponding dividends relating to the liability component are charged as interest expense in the profit and loss account.
