Notes to the Abbreviated Accounts for the period ended 30 April 2014

1 Accounting Policies

Basis of measurement and preparation of accounts

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities effective April 2008.

Turnover policy

Turnover represents the total rental income for the year, net of Value Added Tax.

Tangible assets depreciation policy

Investment properties are included at their estimated open market value as at the Balance Sheet date. In accordance with SSAP 19: (i) investment property is revalued annually and the aggregate surplus or deficit is transferred to a revaluation reserve, and (ii) no depreciation or amortisation is provided in respect of the investment property.

The requirement of the Companies Act 2006 is to depreciate all property, but that conflicts with the generally accepted accounting principles set out in SSAP 19. The directors consider that, as the property is not held for consumption but for investment, to depreciate it would not give a true and fair view, and that it is necessary to adopt SSAP 19 in order to give a true and fair view. If this departure from the Act had not been made the profit for the financial year would have been decreased by the depreciation on the property.
