1. ACCOUNTING POLICIES

Accounting convention
The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective June 2002).

The company was dormant throughout the year ended 31 December 2003. However, reference to information relating to the year ended 31 December 2002 has been made where appropriate.

Turnover
Turnover represents net invoiced sales excluding value added.

Tangible fixed assets
Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Fixtures and fittings - 25% on cost

Deferred tax
The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted. The company has not adopted a policy of discounting deferred tax assets and liabilities.

Going concern
The company has net current assets of £1,358 and total assets in excess of liabilities. There is some concern regarding the going concern basis of the company as the company's debtors includes £1,828 due from the holding company, about which there are concerns about the going concern basis.

The director is implementing plans in order to improve profitability and is confident that he can secure the continued support of creditors for the foreseeable future. For these reasons the director has used the going concern basis for preparing these accounts.
