Doe Sport (North) Limited

Abbreviated balance sheet (continued) As at 31 December 2011

For the financial year ended 31 December 2011 the company was entitled to exemption from audit under section 477 Companies Act 2006. No member of the company has deposited a notice, pursuant to section 476, requiring an audit of these accounts under the requirements of the Companies Act 2006.

The directors acknowledge their responsibilities for ensuring that the company keeps accounting records which comply with section 386 of the Act and for preparing accounts which give a true and fair view of the state of affairs of the company as at the end of the financial year and of its profit or loss for the financial year in accordance with the requirements of sections 394 and 395 and which otherwise comply with the requirements of the Companies Act 2006 relating to accounts, so far as applicable to the company.

These abbreviated accounts have been prepared in accordance with the provisions applicable to companies subject to the small companies' regime.

Approved by the Board and authorised for issue on 9 March 2012

LJ MacLean
Director

Company Registration No. SC164621

Doe Sport (North) Limited

Notes to the abbreviated accounts For the year ended 31 December 2011

1 Accounting policies

1.1 Accounting convention

The accounts are prepared under the historical cost convention.

The company has taken advantage of the exemption in Financial Reporting Standard No 1 from the requirement to produce a cash flow statement on the grounds that it is a small company.

1.2 Compliance with accounting standards

The accounts are prepared in accordance with applicable United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), which have been applied consistently (except as otherwise stated).

1.3 Turnover

The turnover shown in the profit and loss account represents amounts invoiced during the year, exclusive of Value Added Tax. Turnover is recognised in the period in which the goods or services are provided and to the extent of the completion of a contract.

1.4 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Plant and machinery	25% straight line
Fixtures, fittings & equipment	25% straight line
Motor vehicles	25% reducing balance

Investment properties are included at the open market value at the balance sheet date in accordance with Statement of Standard Accounting Practice 19. This is not in accordance with the requirements of the Companies Act 2006, however the directors are of the opinion that this is necessary to ensure that the accounts show a true and fair view.

Interest incurred in the development of investment properties is capitalised as part of costs. However, investment properties are revalued regularly and the aggregate surplus or deficit is transferred to a revaluation reserve.

1.5 Leasing and hire purchase commitments

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible assets and depreciated over the shorter of the lease term and their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.

Rentals payable under operating leases are charged against income on a straight line basis over the lease term.

Doe Sport (North) Limited

Notes to the abbreviated accounts (continued) For the year ended 31 December 2011

1 Accounting policies (continued)

1.6 Stock and work in progress

Stocks are valued at the lower of cost and net realisable value. Work in progress is valued on the basis of direct costs plus attributable overheads based on normal levels of activity. Provision is made for any foreseeable losses where appropriate. An element of profit is included in the valuation of work in progress when it is considered that the outcome of a specific contract can be assessed with reasonable certainty.

1.7 Pensions

The company operates a defined contribution pension scheme which requires contributions to be made to a separately administered fund. Contributions to this fund are charged to the profit and loss account as incurred.

1.8 Taxation

The tax expense represents the sum of the corporation tax and deferred tax charge for the year.

The tax currently payable is based on taxable profit for the year. The company's liability for current tax is calculated using the tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is measured on differences between the carrying amounts of assets and liabilities in the accounts and the corresponding tax bases, as used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all temporary timing differences that have not reversed by the balance sheet date and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available. Deferred tax is calculated at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax is charged or credited in the profit and loss accounts, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.
