Doe Sport (North) Limited

Abbreviated balance sheet (continued)

as at 31 December 2014

For the financial year ended 31 December 2014 the company was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

Directors' responsibilities:

- The members have not required the company to obtain an audit of its financial statements for the year in question in accordance with section 476;
- The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of financial statements.

These abbreviated financial statements have been prepared in accordance with the provisions applicable to companies subject to the small companies' regime.

Approved by the Board and authorised for issue on 25 August 2015

LJ MacLean
Director

Company Registration No. SC164621

Doe Sport (North) Limited

Notes to the abbreviated accounts

for the year ended 31 December 2014

1 Accounting policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention modified to include the revaluation of freehold land and buildings.

The company has taken advantage of the exemption in Financial Reporting Standard No 1 from the requirement to produce a cash flow statement on the grounds that it is a small company.

1.2 Compliance with accounting standards

The financial statements are prepared in accordance with applicable United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), which have been applied consistently (except as otherwise stated).

1.3 Turnover

The turnover shown in the profit and loss account represents amounts invoiced during the year, exclusive of Value Added Tax. Turnover is recognised in the period in which the goods or services are provided and to the extent of the completion of a contract.

1.4 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost or valuation less depreciation. Depreciation is provided at rates calculated to write off the cost or valuation less estimated residual value of each asset over its expected useful life, as follows:

Plant and machinery	20% straight line
Fixtures and fittings	25% straight line
Motor Vehicles	25% reducing balance

Investment properties are included at the open market value at the balance sheet date in accordance with Statement of Standard Accounting Practice 19. This is not in accordance with the requirements of the Companies Act 2006, however the directors are of the opinion that this is necessary to ensure that the accounts show a true and fair view.

Interest incurred in the development of investment properties is capitalised as part of costs. However, investment properties are revalued regularly and the aggregate surplus or deficit is transferred to a revaluation reserve.

1.5 Leasing and hire purchase commitments

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible assets and depreciated over the shorter of the lease term and their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.

Rentals payable under operating leases are charged against income on a straight line basis over the lease term.

1 Accounting policies (continued)

1.6 Stock and work in progress

Stocks are valued at the lower of cost and net realisable value. Work in progress is valued on the basis of direct costs plus attributable overheads based on normal levels of activity. Provision is made for any foreseeable losses where appropriate. An element of profit is included in the valuation of work in progress when it is considered that the outcome of a specific contract can be assessed with reasonable certainty.

1.7 Pensions

The company operates a defined contribution pension scheme which requires contributions to be made to a separately administered fund. Contributions to this fund are charged to the profit and loss account as incurred.

1.8 Deferred taxation

The tax expense represents the sum of the corporation tax and deferred tax charge for the year.

The tax currently payable is based on taxable profit for the year. The company's liability for current tax is calculated using the tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is measured on differences between the carrying amounts of assets and liabilities in the accounts and the corresponding tax bases, as used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all temporary timing differences that have originated but not reversed by the balance sheet date and are not recognised as permanent differences. Deferred tax assets are recognised to the extent that it is probable that taxable profits will be available in the future. Deferred tax is calculated at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax is charged or credited in the profit and loss accounts, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.
