CROCODILE CLIPS LIMITED

NOTES TO THE ABBREVIATED ACCOUNTS

1. ACCOUNTING POLICIES

Basis of preparation of accounts

The accounts are prepared in accordance with applicable accounting standards and under the historical cost convention and include the results of the Company's operations which are described in the Directors' Report and all of which are continuing.

Turnover

Turnover consists of the invoiced value (excluding VAT) for goods and services supplied to third parties.

Fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided in equal amounts each period in order to write off the original cost of tangible fixed assets over their estimated useful economic lives. Estimated useful economic lives are:-

Computer related	2 years
Other equipment	4 years
Fixtures and fittings	10 years

The fixed asset investment of £1 in Crocodile Clips (Trustees) Limited (CCTL) is stated at cost, and the accounts of the company do not consolidate the result of CCTL in line with the exemption provided by s.248 of the Companies Act 1985.

Stocks

Stock is valued at the lower of cost, on a first in first out basis, and net realisable value, after making due allowance for obsolete and slow moving items. Work in progress and finished goods are valued at cost including attributable direct labour and overhead costs after making due allowance for obsolete or slow moving items.

Debtors

Known bad debts are written off and provision is made for any debts considered to be doubtful.

Taxation

The charge for taxation is based on the result for the period and takes into account taxation deferred because of timing differences between the treatment of certain items for accounting and taxation purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted. Deferred taxation is measured on a non-discounted basis at the tax rates that are expected to apply in the periods in which the timing differences reverse. Foreign withholding taxes are written off in the year if they are not expected to be recoverable against UK corporation tax liabilities.

Leases

Assets acquired under finance leases are capitalised and depreciated over their useful economic lives. Outstanding obligations under the leases, net of finance charges, are included in creditors. Operating lease costs are charged to the profit and loss account on a straight line basis over the lease period.

Pensions

The company does not operate a pension scheme at present.

Research and development

Computers and equipment for research and development are included as fixed assets and written off in accordance with the company's depreciation policy; other research and development expenditure is written off in the year in which it is incurred.

CROCODILE CLIPS LIMITED**NOTES TO THE ABBREVIATED ACCOUNTS (Cont'd)****1. ACCOUNTING POLICIES (cont'd)****Government and other grants**

Revenue grants receivable are taken to profit and loss account in the period to which they relate.

Foreign currencies

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate ruling on the date of the transaction. Exchange differences are taken into account in arriving at the operating profit.
