PRINCIPAL ACCOUNTING POLICIES

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller entities (effective March 2000).

The principal accounting policies are set out below.

Turnover

Turnover represents the total amount receivable by the company in the ordinary course of business for goods and services supplied excluding VAT.

Depreciation

The periods generally applicable are:

Office equipment	-	4 years

Leased assets

Assets held under finance leases and hire purchase contracts are capitalised in the balance sheet and depreciated over their expected useful lives. The interest element of leasing payments represents a constant proportion of the capital balance outstanding and is charged to the profit and loss account over the period of the lease.

All other leases are regarded as operating leases and the payments made under them are charged to the profit and loss account on a straight line basis over the lease term.
